THE REGENCY AUCTION 38

MAY 14TH • WEBCAST

Dear Collector,

Welcome to Legend Rare Coin Auctions' 38th Regency Auction!

Over the last few months, the world has gone through a major change with the Covid-19 Coronavirus, but the numismatic hobby has been quite resilient! Our last Regency Auction had to be relocated from a live auction that was scheduled to be in Philadelphia, to our offices in New Jersey, and was an online, web-cast sale. We thank each and every one of you, our customers, for your continued support. It is our great honor to present this impressive selection of rare U.S. Coins.

Starting off the auction is the Blue Hill Collection, a world class collection of the largest denominations struck at the New Orleans mint, silver dollars and double eagles. Each coin is graded by PCGS, and was carefully selected by a very astute, dedicated collector, who focused on originality of surfaces and boldly struck devices. The highlights are numerous, but include the 1850-O dollar in MS63 PCGS CAC, the famed 1854-O double eagle in PCGS XF40 and equally rare and important 1856-O in PCGS XF45 CAC. WOW! Add the fact that many of these coins are very fresh to the market, and you are building to a very exciting auction event!

The Ogden Avenue Ladies is the current #3 PCGS Registry Set of Proof Liberty nickels, and joins the legacy of the Trzaska and Meridian Collections we had the pleasure of selling in 2019, as one of the great sets of Proof Liberty nickels sold in recent memory. Needless to say each coin is very high grade, many are finest, or tied for finest graded.

Rounding out the named collections is the Tommy John Collection. These are the coins that were auction appropriate from a massive estate collection that we had the honor of selling in our hybrid selling program. An assortment of better date Standing Liberty quarters and a few popular, modern rarities, the highlight of which is a 1918/7-S quarter in PCGS MS63.

Further highlights include:

- Lot 48. 1/2C 1848 Original. PCGS PR65 RB CAC
- Lot 109. 5C 1918/7-D PCGS MS64+ CAC
- Lot 136. 20C 1875-CC PCGS MS65+ CAC
- Lot 165. 50C 1826 PCGS MS65 CAC
- Lot 183. 50C 1923-S PCGS MS65+ CAC
- Lot 259. \$1 1893-O NGC MS64+ CAC
- Lot 275. G\$1 1850 PCGS MS68 CAC
- Lot 285. \$5 1887 PCGS PR64 CAM CAC
- Lot 286. \$1 1909-O PCGS MS63 CAC

On behalf of all of us at LRCA, we hope you stay safe and healthy, and thank you again for your unflinching support as you add great coins to your cabinets.

President

TERMS AND CONDITIONS

This is a public auction, conducted in accordance with these Terms and Conditions of Sale, by Legend Rare Coin Auctions (hereinafter referred to as "LRCA"). By bidding on any lot offered by LRCA, the bidder indicates acceptance of the following Terms and Conditions of Sale. Bidders are to comply with the Terms and Conditions of Sale, posted on LegendAuctions.com, at the time of the auction in which they are participating.

BUYER'S PREMIUM

A 17.5% buyer's premium will be added to all successful bids, and is payable by the winning bidder as part of the total purchase cost.

SALES TAX

All sales are subject to applicable state and local taxes. Any lots that are picked up and/or delivered in the state of The Regency Auction are subject to applicable state and local taxes.

PAYMENT

All merchandise must be paid for within TEN (10) days of the date of sale. We reserve the right to cancel any unpaid order after that time and to ban the bidder from future sales. Credit cards (Visa, MasterCard and Discover) are accepted for auction payments up to \$2,500.00 per invoice. Invoices and/or balances over \$2,500.00 must be paid via personal or certified check, money order, or wired funds. Personal checks, money orders and cashier's checks may be held for up to 10 business days in order to allow time for them to clear appropriate banking channels. Please email info@legendauctions.com for bank-wiring instructions and/or to provide numismatic references.

E-CHECK PAYMENTS

E-check payments now available. Please email form to info@legendauctions.com

INTERNATIONAL BUYERS

Foreign buyers, unknown to us, are required to deposit 25% of their anticipated expenditures before bidding. Please contact us in advance of bidding for bank wiring instructions.

EXTENDED PAYMENT TERMS

For all items \$15,000.00 and over, LRCA is now offering Extended Payment Terms. Please advise us at least 48 hours before bidding or purchasing the item in question. Pre-approval is required.

RETURN POLICY

All lots are sold "as is." Lots graded by PCGS, NGC or other third-party grading services, or any lot viewed by the buyer or anyone on buyer's behalf prior to the auction, may not be returned. This is not an approval sale. All sales of lots to the highest bidder are final. Bidders are strongly advised and encouraged to research any lots upon which they plan to bid, and to determine bids, based upon their own evaluation. Bidders assume all risks concerning and related to the grade, quality, appearance, condition, history and origin of any lot. Bidders acknowledge that coin grading is not an exact science, that it can be subjective and inconsistent and that it is possible that two parties might assess or grade the same coin differently. LRCA makes every effort to accurately describe all items offered in its sales. All items will be available for preview prior to the auction.

SHIPPING

Shipping costs will be billed separately and are non-refundable. Items will usually ship within 5-10 business days after payment has been received and/or funds have cleared. Coins will be shipped via Fed Ex or USPS or transported via armored carrier.

The shipping charge includes fees for our third-party insurance coverage, as well as any costs incurred through the USPS or Federal Express. Any shipments made via armored carrier (Brinks, Dunbar, etc.) will be calculated and assessed at the time of shipment.

INTERNATIONAL SHIPPING

It is not possible for LRCA to ship to some countries. Please email questions to info@legendauctions.com. Payment for all international orders is required in US funds. Please contact julie@legendauctions.com for bank wiring instructions.

Customs requirements for each country are the responsibility of the buyer. All packages shipped outside of the United States will include the required customs declaration and full value of the invoice.

BIDS VIA TELEPHONE

An absentee bidder may also participate live, during the auction, via telephone. Requests for phone bidding must be received at least three days prior to the auction date. Please fill out our phone bidding request form online or call 732-935-1168 to request a call from one of our representatives during the live auction. LRCA cannot guarantee phone lines, but will make every effort to accommodate those who wish to participate via this method.

RIGHTS & RESPONSIBILITIES

The auctioneer will determine the highest bidder. The auctioneer, alone, has the right to reopen the bidding for an item, if deemed necessary. LRCA and its representatives reserve the right to remove any attendees who impede the preview and/or the auction. Title to all merchandise shall pass to the winning bidder after receipt of good funds by LRCA. Bidders will be held responsible for their bids, including those bids placed incorrectly. PLEASE VERIFY BIDS BEFORE SUBMITTING THEM. In order to have a bid removed or corrected, bidder must contact LRCA prior to start of the auction. Bidder waives auctioneer's responsibility and holds LRCA harmless for failure to recognize, accept, receive or execute any lost or missing bids by internet, telephone, email, floor bid, fax, mail or other means. LRCA reserves the right to postpone or cancel an auction without notice. Lots may be withdrawn at LRCA's discretion, without prior notice. Lots may carry a reserve. A reserve is a price below which the auctioneer will not sell an item, or will re-purchase the item on behalf of the consignor or for LRCA. LRCA permits bids to be placed by the auctioneer, or an employee of the auctioneer, up to the pre-determined reserve set by the consignor. Legend Rare Coin Auctions' partner, Legend Numismatics, reserves the right to bid on items, for its own account and for the accounts of its clients.

DISCLAIMER AND WARRANTIES

No warranty of merchantability or fitness for a particular purpose is made or implied on any lot. No warranty, whether expressed or implied, is made with respect to any lot except for warranty of title, and in the case of title, auctioneer is selling only that right or title to the lot that the consignor may have as of the auction sale date. All lots are sold "as is" and with all faults. Purchaser hereby assumes all risks concerning and related to the grading, quality, description, condition, authenticity, and provenance of a lot.

- a. Coins and currency listed in this catalog graded by PCGS, NGC, or any other third party grading service or examined by the buyer prior to the auction sale may not be returned for any reason whatsoever by any buyer, except for claims related to authenticity.
- b. For non-certified coins that have not been examined by the Buyer prior to the Auction Sale: if it is determined in a review by LRCA that there is a material error in the catalog description of a non-certified coin or the LRCA no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by LRCA, in their original, sealed containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.
- c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.
- d. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges.
- e. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of LRCA. LRCA shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.
- f. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.
- g. All oral and written statements made by LRCA and its employees or agents (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of LRCA has authority to vary or alter these Terms and Conditions of Auction Sale. LRCA reserves the right to vary or alter the

Terms of Sale, either generally or with respect to specific persons or circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of LRCA authorized to do so.

h. LRCA is acting as an auctioneer. Title to the lots purchased passes directly from the Consignor to the Buyer. Accordingly, LRCA is not making, and disclaims, any warranty of title.

i. Bidder acknowledges that the numismatic market is speculative, unregulated and volatile, and that coin prices may rise or fall over time. LRCA does not guarantee or represent that any customer buying for investment purposes will be able to sell for a profit in the future.

j. Bidder acknowledges and agrees that neither LRCA, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be liable for such events.

WAIVER AND RELEASE

Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges LRCA, and its respective affiliates, parents, officers, directors, shareholders, agents, subsidiaries, employees, managers and members and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, tort or otherwise, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale.

DISPUTES

If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, LRCA reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. LRCA reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither LRCA nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from LRCA. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Legend Rare Coin Auctions to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the commercial arbitration rules of the American Arbitration Association, with any arbitration hearing to occur in Monmouth County, New Jersey. Absent an agreement of the parties, the arbitrator shall limit discovery to that which is necessary to enable the hearing to proceed efficiently. The arbitrator shall not have the power to award punitive or consequential damages, nor alter, amend or modify any of the terms of this Agreement. The award by the arbitrator, if any, may be entered in any court having jurisdiction thereof. Each party shall pay one-half the costs of the arbitration. Bidder acknowledges and agrees that the competent courts of the State of New Jersey shall have exclusive in personam jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Monmouth County, New Jersey; and any court proceeding shall be in the Monmouth County Superior Court, in the State of New Jersey, and in each case waive any claim of Forum Non Conveniens. Bidder agrees that any arbitration or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale.

Auction participants expressly waive any right to trial by jury.

PRINCIPALS

Laura Sperber
Partner

Laura was raised in Highland Park, NJ. During high school, the coin bug hit her hard. Her trip to the 1976 NYC ANA left a lasting mark and huge desire for her to own and handle the greatest rarities. While attending Monmouth University, Laura attended coin shows more than classes. After college, she started LSS RCI, a wholesale coin company. In 1986, she realized the need for a "better" coin retailer and teamed up in 1986 with George Huang to form Legend Numismatics.

In 1996 Bruce Morelan became a partner and since then Legend has exclusively built or assisted in assembling this generation's greatest collections. In 2012 Laura saw the need for a smaller, boutique auction firm, and created Legend-Morphy with Dan Morphy, whom she split with in 2014. Today, Laura is also a leading consumer advocate for coins. The passion has never subsided, and she keeps a beautiful Proof Walker on her desk to this day.

Bruce Morelan
Partner

Bruce started collecting coins when he was only six years old and by the time he was in high school his dream was to be a coin dealer. But life intervened and instead, Bruce went into business. By chance, he became Legend Numismatics' financial backer in 1996. His great grandmother had given him three coins when he was young, one of which being a Trade Dollar, so he set out to build the finest Trade Dollar set. After a few years with ultra rarities, Bruce returned to his love of dollars and completed both a set of Gobrechts and a set of Seated Dollars.

After selling those sets, Bruce recently returned to dollars with a new Gobrecht set and a spectacular early dollar set capped by his dream coin, the Amon Carter 1794 Dollar. Not many collector's can say they have completed not only the finest 1794-1885 Dollar Sets and have over the years owned such coins as two 1913 Liberty Head Nickels, an 1894-S Dime, 1876-CC Twenty Cent piece, 1827 Original and Restrike Quarters, 1838-O Half Dollar, two 1885 Trade Dollars and four 1884 Trade Dollars!

CEO

Matthew Bell graduated Magna Cum Laude from Ithaca College with Business Administration degrees in Finance and Marketing and Accounting. He is a member of five collegiate honor societies, the Oracle Society, Phi Kappa Phi, Beta Gamma Sigma honor society for Business, Sigma Iota Epsilon, and Beta Alpha Psi.

Prior to joining the Legend team, he was Senior Accountant for Global Essence, Inc, an international flavor and fragrance company. Originally hired as a Staff Accountant, he was quickly promoted to be the number two person in the Finance Department for the company.

Matthew was brought onto LRCA in September 2017 as Controller for both LRCA and Legend Numismatics. He was promoted initially to Executive Vice President in May of 2018, and again to CEO in January of 2020. Since he has been with the company, Legend Rare Coin Auctions has seen its business expand to seven Regency Auctions per year, and enjoyed three consecutive years of revenue growth.

Julie Abrams
President

Julie Abrams started in numismatics in 1986 when she joined up with Bernard Rome and launched Teletrade, the first computerized auction company. As President of Teletrade, Julie helped expand the company, increasing the frequency of auctions and expanding annual sales to \$24 million within a few years. In 1999, GMAI, a publicly traded company, purchased Teletrade and Ms. Abrams became Executive Vice President of Sales for the parent company, as well as continuing her role as CEO for Teletrade.

In 2004 she joined Stacks-Bowers, she worked to develop an online bidding platform for the firm. She also marketed Stacks' programs to secure consignments from dealers and institutions such as banks, museums and universities.

To our Customers and Consignors,

Thank you all for your continued support during these trying times! With everything changing almost daily we appreciate you working with us and making this sale another great Regency Auction. While we will miss being at a PCGS Members Only show and seeing all the friendly faces a show provides, we know that being apart is the only way we can be together again. We look forward to things returning to normal and are glad to be able to put on an auction, providing some kind of normalcy in a hectic world.

Please continue to take care of yourselves and your families, we look forward to seeing you again soon!

MAY 14TH • WEBCAST

THE BLUE HILL COLLECTION

Legend Rare Coin Auctions is proud to offer the Blue Hill Collection of New Orleans Silver Dollars and Double Eagles. Assembled by a life-long collector, who began accumulating coins in 1965 as silver was removed from circulation, the Blue Hill collector has been focused on New Orleans coins for about the last 15 years, which in 2015 became the top New Orleans Gold set on PCGS's Registry.

Over the last few years, certain coins have been sold, but he has saved the biggest coins for last to sell, and has chosen LRCA to sell this specialized collection. Complete sets of New Orleans mint dollars and double eagles, featuring the four Seated Liberty dates (1846-O, 1850-O, 1860-O, and 1861-O), and all the Morgan dollar issues, including interesting varieties such as the 1887/6-O, the 1888-O Scarface, and 1900-O/CC, all in Mint State, all graded by PCGS, and the majority of coins boasting CAC approval. The highlight though of this collection is the complete set of double eagles, which include the famed 1854-O (PCGS XF40) and 1856-O (PCGS XF45 CAC) rarities. Again, all these coins are graded by PCGS, and

many have CAC stickers. Any complete collection of New Orleans double eagles is a major numismatic achievement, one that over the years, very few can have claimed to have done. This auction of the Blue Hill Collection is truly an historic numismatic event!

Having worked for years on this collection, each coin was clearly selected with the eye of a connoisseur. The technical and aesthetic qualities are all above average, and in many cases the coins rank among the condition census for the issue. Sharp strikes and clean surfaces were of special importance to the collector, as well as unconserved examples of the gold coins, which so often have been stripped of their original surfaces in attempts at receiving a higher grade. Each coin would make a fantastic addition to any collection.

Legend Rare Coin Auctions would like to thank the collector for entrusting us with this important, world class cabinet of rare coins, and we extend our hearty congratulations to the winning bidders for adding such wonderful coins to their collections.

LOT 1**\$1 1846-O PCGS MS62**

While the Seated Liberty dollars began being coined in 1840, it was not until 1846 when the New Orleans mint began making them. In that first year, the production run recorded only 59,000 struck, all in June of that year, and went right into circulation. Any Mint State example is a real prize for the collector, and because it would not be for another 45 years until August Heaton's Treatise on Mintmarks, no one paid attention to mintmarks. Any example

that survived in Mint State from antebellum times is a real marvel! Seated Liberty dollars were struck in New Orleans in only four years, 1846, 1850, 1859, and 1860, the latter two dates are easier to locate in Mint State thanks to several bags that were located in old treasury holdings.

The present coin is essentially fully CHOICE. A satiny, semi-glossy mint bloom glistens from below a layer of pewter and gold iridescent toning that betrays hints of steely-lilac and pale rose when rotated in a light. Some light weakness of strike is noted on Liberty's thighs and on the eagle's wing, but this is normal. A scattering of small contact marks that account for the MS62 grade assigned by PCGS do not detract from the outstanding visual allure the worst of which is a minor bump on the rim at 9:30 on the obverse.

PCGS 10, NGC 8. The most recent PCGS-graded example sold in December 2019 for \$7,800. The current PCGS Price Guide value is listed at \$9,500. Just a bakers' dozen are graded finer, coins that rarely appear in auction. This very pleasing coin will certainly fit nicely in any set of Seated Liberty dollars or type coins. Worthy of another amazing New Orleans set!

PCGS# 6933 • ESTIMATE: \$7,000+

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

LOT 2**\$1 1850-O PCGS MS63 CAC**

Tied for second FINEST graded at PCGS, and one of only two PCGS MS63s ever sold in auction, this coin accounts for two of the three appearances in the 21st century. Only 40,000 examples were struck, and this is one of the major rarities in any Mint State grade, especially so fine. Only one is graded finer at PCGS, an MS64 that last sold in the 2013 ANA auction.

This coin is the former Gene Gardner coin, which is distinctly toned and instantly recognized by the coppery-gold and blue hues that mingle with original silver-dove-pewter. Well struck devices stand out with a bold luster and are accented by the dappled pattern of the totally original patina. The fields range from a frosty satin type luster to a hint of icy semi-PL reflection. There are no serious marks of any kind to distract the naked eye, and even with the aid of a strong glass, nothing more than a few trivial reeding marks are seen. The eye appeal is stupendous.

The majority of this date was likely exported and melted for its bullion value. By 1850, the ratio of gold to silver in circulation, thanks in large part to the tons of gold pouring out of the California Gold Rush, making the bullion value exceed the face value, and all silver denominations of the era suffer poorer survival than you would expect based on mintage. While PCGS CoinFacts estimates a survival of 1,500 pieces, the Osburn-Cushing reference estimates 1,000, which is probably more accurate.

PCGS 4, NGC 0, CAC 3. The most recent coin was the non-CAC A.J. Vanderbilt Collection piece which sold for \$28,800 in March 2018. This coin sold in October 2014 for the same amount. The current CAC-CPG value is \$35,100 and the Collectors Universe value is \$29,000. Keeping in mind that the sole finest MS64 sold in the 2013 ANA auction for a world record \$105,750, this important 1850-O dollar is worthy of another world class Seated Liberty dollar collection.

Good luck!

PCGS# 6938 • ESTIMATE: \$25,000+

LOT 3

\$1 1859-O PCGS MS63 CAC

A brilliantly lustrous CHOICE Mint State example, likely from the storied treasury vault releases from the early to mid 1960s. Estimates vary, but as many as three bags of 1,000 coins each are reported to have been released. (that number might be a little high, including resubmissions, the combined PCGS and NGC population figures comes to 815).

Untoned, radiant lustrous surfaces show just a slight scattering of contact, typical of the date and grade. Nicely struck, this coin has a great eye appeal for the grade.

PCGS 72, NGC 37, CAC 17. The last one sold for \$3,500 in February 2017. Prior to that, the last sold for \$4,700 back in July 2013, and the current PCGS Price Guide value is listed at \$4,000. There are less than three dozen graded higher, making this a great coin for any type set or BU set of Seated Liberty dollars. Worthy of a strong bid.

PCGS# 6947 • ESTIMATE: \$3,000+

LOT 5

\$1 1879-O PCGS MS66

What a great way to start off the Morgan dollars from this outstanding collection! With less than a handful graded finer, this impressive GEM has an outstanding look that will delight even the pickiest of old time Morgan collectors.

An abundance of radiating mint brilliance dominates both sides. The high end silvery luster blooms vividly all over, accenting the near-flawless surfaces.

Using a strong glass, a small toning dot is seen at IN on the reverse and a few very tiny scattered ticks and lines, which are appropriate for the assigned MS66 grade and this GEM has a really nice visual allure!

PCGS 35, NGC 11. The most recent example sold for \$9,300 in December 201 and prior to that, tow sold in the 2019 ANA auction, realizing \$12,600 and \$14,400. The current PCGS Price Guide value is listed at \$13,000. Just seven coins are graded finer, all MS66+, and one will cost close to \$20,000 if you can find another. We anticipate very strong bidding when this PQ GEM crosses the block!

PCGS# 7090 • ESTIMATE: \$9,000+

LOT 4

\$1 1860-O PCGS MS62+ CAC

Bold, brilliant, lustrous, and beautiful, this is a truly CHOICE example of this final New Orleans mint Seated Liberty dollar. Just slightly “off-white” silver surfaces have a bold luster with a hint of flashy, semi-PL reflection. Some minor abrasions account for the assigned grade, this well struck coin likely came out of the famed Treasury hoard in the early 1960s. The eye appeal is very high end.

PCGS 87, NGC 60, CAC 23. There are three graded MS62+ at PCGS, only a single, non-CAC example ever sold in auction, bringing \$2,350. The current PCGS Price Guide value is listed at \$2,850. A pleasing type coin for sure, worthy of a strong bid for its PQ quality for the grade.

PCGS# 6950 • ESTIMATE: \$2,000+

**LOT 6****\$1 1880-O PCGS MS64+ CAC**

Clearly this borderline GEM quality 80-O dollar was hand selected by this picky collector for its outstanding quality! Fully lustrous with a thick mint frost on both sides, this coin would grade MS65 were it not for a tiny tick or two on Liberty's otherwise clean cheek. Well struck up, the definition is crisp and does not have the notorious pancake flat New Orleans definition usually seen.

PCGS 1692, NGC 952, CAC 205. PCGS has graded 170 in MS64+, and based on its rarity in MS65 and finer, we are certain that that number includes lots of duplication. The last MS64+ PCGS/CAC sold in our December 2019 Regency Auction for \$2,820 and prior to that they were bringing over \$3,000. The current PCGS Price Guide value is \$3,750. Keep in mind that a PCGS/CAC MS65 is worth over \$20,000 and there are none graded finer than MS66. Truly a condition rarity that will see very strong bidding competition from the pickiest collectors who do not wish to spend five figures on a marginally finer coin.

PCGS# 7114 • ESTIMATE: \$2,800+

**LOT 8****\$1 1881-O PCGS MS65+ CAC**

A blast white GEM with thick white frost on the sharply struck devices and radiating cartwheel luster that blazes across the surfaces. There are no serious marks or ticks of any kind that would distract the eye, and the visual effect is bold.

PCGS 936, NGC 472, CAC 84. The last PCGS/CAC MS65+ sold for \$1,234 in our January 2020 Regency Auction, but that toned coin did not have the same eye appeal as this blast white silver beauty. The current PCGS Price Guide value is listed at \$2,000. The value jumps to \$7,500 in MS66 and there are none finer than MS66+ graded.

PCGS# 7128 • ESTIMATE: \$1,200+

**LOT 7****\$1 1882-O 80/79. VAM 4, CROSSBAR. PCGS MS64 CAC**

A beautiful example of this Top 100 VAM (tied for FINEST VAM 4 graded). Conditionally very RARE with just a dozen coins graded any finer at PCGS (for all 80/79 varieties), and just glancing at this essentially GEM-quality example, the Blue Hill collector carefully selected this coin for the set. It is very high end! Radiating, cartwheel luster swirls all over on both sides of this frosty and well struck example. The eye appeal is very high end and is not affected by the insignificant contact that we see with a strong glass.

PCGS 14, NGC 7, CAC 15. The last CAC approved example brought \$1,980 in November 2017 and more recently a non-CAC brought \$2,640 in June 2019. The PCGS Price Guide value is listed at \$2,000.

PCGS# 7116 • ESTIMATE: \$1,800+

**LOT 9****\$1 1882-O PCGS MS65+ CAC**

Rarer in GEM than the 6,090,000 mintage would suggest, this date does not come much better than this! The 1882-O is also not a date that is often seen with rich, original toning. Pastel and iridescent hues, shades of teal, peach, gold, pink, and violet blend together for a bold visual effect on the obverse. The subtle differences in shade brought out by a strong, whirling cartwheel luster. Sharply struck and displaying only a few minor traces of contact, this is an outstanding GEM.

PCGS 1282, NGC 498, CAC 85. PCGS has graded 81 in MS65+. Let the CAC Population sink in for a moment! While the average PCGS/CAC MS65+ has brought nearly \$1,950 in auction and the current PCGS Price Guide value is listed at \$1,250, we know this coin will bring more. Extremely hard to find any finer, especially with CAC approval. Good luck.

PCGS# 7136 • ESTIMATE: \$1,200+

**LOT 10****\$1 1883-O PCGS MS66+ CAC**

Totally original, this borderline SUPERB GEM has a thick, frosty, satin luster that radiates vividly all over. Sharply struck for the date, the devices are crisp and the surfaces remarkably clean.

PCGS 1111, NGC 1092, CAC 208. There are 149 in MS66+ at PCGS. Only 100 have graded finer. The most recent sold for \$625 in September 2019 and the current PCGS Price Guide value is listed at \$850.

PCGS# 7146 • ESTIMATE: \$575+

LOT 11**\$1 1884-O PCGS MS66 PL CAC**

WOW! This coin is a screaming, blazing, bold, brilliant ball of luster! Swirling cartwheel luster flows vividly across the ultra clean and reflective fields. The frosted devices stand out with full, crisp definition. The cheek is free of any distracting marks of any kind anywhere. The eye appeal is simply superb.

PCGS 38, NGC 19, CAC 13. The current CAC CPG value is listed at \$1,020 and the most recent sold for \$840 in July 2019. ONLY four are graded higher. Worthy of another great set of Morgan dollars from New Orleans.

PCGS# 7155 • ESTIMATE: \$750+

**LOT 12****\$1 1885-O PCGS MS67 CAC**

Would you expect anything less than a vividly brilliant SUPERB 85-O in this set? Unlike the typical example the central devices are nicely defined, with crisp details throughout. The cheek and fields are smooth, and immaculate with essentially pristine quality. Brilliant luster radiates from all over, giving this blast white, untoned 67 an exceptional look.

PCGS 358, NGC 567, CAC 180. The last two examples sold for \$1,200 and the current CAC CPG value is listed at \$1,500. A great coin for anyone looking for an excellent MS67 with a CAC sticker.

LOT 13
\$1 1886-O PCGS MS64

CAC

VERY CHOICE and oh, so close to GEM quality. The Morgan dollar series is filled with conditionally rare dates, and the 1886-O is one. Despite a mintage of 10,710,000, very few were saved at the time of issue. Common in circulated grades, this date is RARE in MS64 and is excessively so in GEM.

For the date, this near-GEM is ultra lustrous and sharply struck up. The details

are well formed and nearly fully rendered. This date usually comes flat as a pancake, but the present coin was clearly chosen for its exceptional definition. The surfaces are very clean and free of any singularly distracting marks or contact of any kind. The luster swirls boldly on both sides accenting a delicate pearly sheen. The eye appeal is excellent.

PCGS 232, NGC 79, CAC 42. The most recent example to sell in auction brought \$9,600 in the 2019 ANA auction, and before that we sold one for \$11,456 in June 2019. The current CAC CPG value is \$11,900. There are 31 coins graded finer at PCGS, the vast majority of them being MS64+ (only two are 65 and one is 65+). This is an exceptional and very high end coin that is worthy of a great Morgan dollar collection. Good luck!

PCGS# 7168 • ESTIMATE: \$8,000+

LOT 14

\$1 1887-O PCGS MS64+ CAC

Oh so close to GEM caliber, this blast white 87-O has a bold and brilliant luster that has a semi-Prooflike reflection in the obverse fields. The well struck devices are crisp, not flat as often seen. Generally clean, the cheek is frosty and free of any singularly distracting marks or lines.

PCGS 3161, NGC 1945, CAC 215. There are 183 struck at PCGS. The last PCGS/CAC example brought \$480 and the current PCGS Price Guide value is \$475. This near GEM, like all the coins in this set was carefully selected and will fit nicely in any GEM set.

PCGS# 7176 • ESTIMATE: \$400+

LOT 15

\$1 1887/6-O PCGS MS63 CAC

The 1887/6 from New Orleans is definitely scarcer than the Philly mint sibling, and is especially so with CAC approval. Highly lustrous surfaces are truly a delight to behold. A well struck example for the issue, the definition is bold throughout. Mostly brilliant silver, there is just the ever slightest touch of golden color seen at the obverse rim.

This popular overdate was not discovered until 1972, thus precious few survive in so high a grade; the population drops off dramatically in MS64.

PCGS 350, NGC 150, CAC 33. PCGS/CAC examples have sold in the \$1,800 to \$2,585 range. The PCGS Price Guide value is \$1,800 and the CAC CPG value is listed at \$2,060. Quite difficult to find any finer.

PCGS# 7178 • ESTIMATE: \$1,600+

**LOT 16****\$1 1888-O PCGS MS66+ CAC**

A lovely coin, one that ranks among the FINEST examples extant, as just a single MS67 is graded finer at PCGS.

Highly lustrous surfaces burst with a radiant mint brilliance. The fields and devices are essentially flawless, even the cheek, which often comes with marks is smooth and totally problem free. Nicely struck devices are frosty and are accented against the lustrous fields, imparting a great eye appeal.

PCGS 409, NGC 49, CAC 71. There are 48 graded MS66+ and just a single MS67 is graded higher. The average APR for a 66+ with CAC approval is \$4,906, the most recent example realizing \$8,700 in September 2019. The current PCGS Price Guide value is listed at \$5,000 and we would not be shocked if this coin brought around that amount.

PCGS# 7184 • ESTIMATE: \$3,500+

**LOT 17****\$1 1888-O SCARFACE. PCGS MS62 CAC**

WOW! That is an extensive die crack-- no wonder the Scarface variety is known as the "mother of all Morgan die breaks." Like the Bearded Goddess in the Capped Bust half dollar series, this is one of the few times that a broken die becomes a hugely popular Red Book variety, in demand from all manner of collectors. A satiny lustrous surface has a pearly-silver brilliance. Well struck despite the advanced, broken state of the dies, which has a bolder, more dramatic break than the MS61 we sold in January 2020. A touch of the lightest gold kisses the surfaces, attesting to the originality. Despite the lower MS62 grade, there are no serious marks and the eye appeal is very high end for the MS62 grade level.

PCGS 33, NGC 8, CAC 19. The last PCGS/CAC MS62 sold in November 2017 for \$4,560 and the current PCGS Price Guide value is listed at \$5,000. We do note that the market for these seems to have softened a little in the last year or so, making now a great time to add one of these dramatic varieties to your set at today's more affordable levels.

PCGS# 87184 • ESTIMATE: \$2,800+

**LOT 18****\$1 1889-O PCGS MS65+****CAC**

The 89-O is a notorious date for its pancake flat strike. This one is somewhat better defined than the typical example, though we note some minor softness at the extreme centers. A pearlescent silver sheen with the slightest hint of faint gold is seen at certain angles. No serious contact can be seen anywhere, this is the definition of a GEM example.

PCGS 293, NGC 57, CAC

18. There are 23 in MS65+ graded at PCGS and just 14 graded higher. The last PCGS MS65+ CAC sold in September 2019 for \$7,200; prior to that, we sold one in July 2018 for \$8,225. The current Collectors Universe value is listed at \$7,000. EXTREMELY RARE any finer. No CAC approved MS66 has ever sold in auction, but the CAC CPG value is listed at \$20,600. Bound for a fantastic set of Morgan dollars, this coin will see strong bidding.

PCGS# 7192 • ESTIMATE: \$6,000+

LOT 19**\$1 1890-O PCGS MS65+ CAC**

This is a high end GEM example of this conditionally rare date. In MS65, the 1890-O is quite scarce and VERY RARE any finer. The present coin is truly worthy of its "+" grade and CAC accolades. Well struck with a bold mint luster, it is clear that the collector worked hard to find an example with full, crisp definition throughout. The surfaces are very clean and very pleasing overall with nary a mark of real consequence. The eye appeal is spectacular!

PCGS 882, NGC 209, CAC 62. There are 79 in MS65+ and just 31 graded higher. We suspect that there is a lot of duplication in the Population Reports in MS65 and MS65+ as coins get cracked out and tried for upgrades. In MS65 (no +), the CAC CPG value is \$1,940 and the current Collectors Universe value in 65+ is \$1,650. The last one to sell brought \$1,880 in our January 2020 Regency Auction, and we sold a PCGS MS66 CAC in our September 2019 Regency Auction for \$11,750. This is a great coin bound for a wonderful GEM Morgan set.

PCGS# 7200 • ESTIMATE: \$1,500+

LOT 20**\$1 1891-O PCGS MS64+ CAC**

This coin is oh so close to MS65 grade that we are certain in the old days, it would have been cataloged as a "Gem BU" piece. The present coin is ultra lustrous and well struck for the date and grade. While there are some minor traces of bag contact which account for the grade, this lustrous beauty has a stunning visual allure that cannot be beat!

PCGS 1891, NGC 1109, CAC 125. There are 156 graded MS64+ at PCGS. The last example realized \$1,050 in the 2020 FUN auction. Prior to that, one sold in July 2019 for \$1,668 and we sold one for \$1,234 in June 2019. The current PCGS Price Guide value is listed at \$1,200. Scarce in MS65, and VERY RARE any finer, keep in mind that in MS65 the value jumps to \$4,250. Another great New Orleans Morgan for the collector.

PCGS# 7208 • ESTIMATE: \$900+

LOT 21**\$1 1892-O PCGS MS64+ CAC**

A true, borderline GEM quality 92-O Morgan dollar. A coin that has a blazing silver mint luster that glows with a bold radiance on both sides. While we note some moderate softness of strike in the extreme central details, which is common to the date, the surfaces are very clean and free of any singularly distracting marks. The swirling brilliance of the cartwheels create a gorgeous, mint fresh look.

PCGS 2503, NGC 1490, CAC 236. PCGS has graded 190 in MS64+. Scarce in MS65 and RARE any finer, the 64+ is a great grade for any collector on a more modest budget, especially when they look like this! Collectors Universe lists a value of \$1,150 and the most recent example brought \$852 in our December 2019 Regency Auction. With CAC MS65s selling between \$5,463 and \$11,750, this coin seems a great value. Bid accordingly!

PCGS# 7216 • ESTIMATE: \$800+

LOT 22

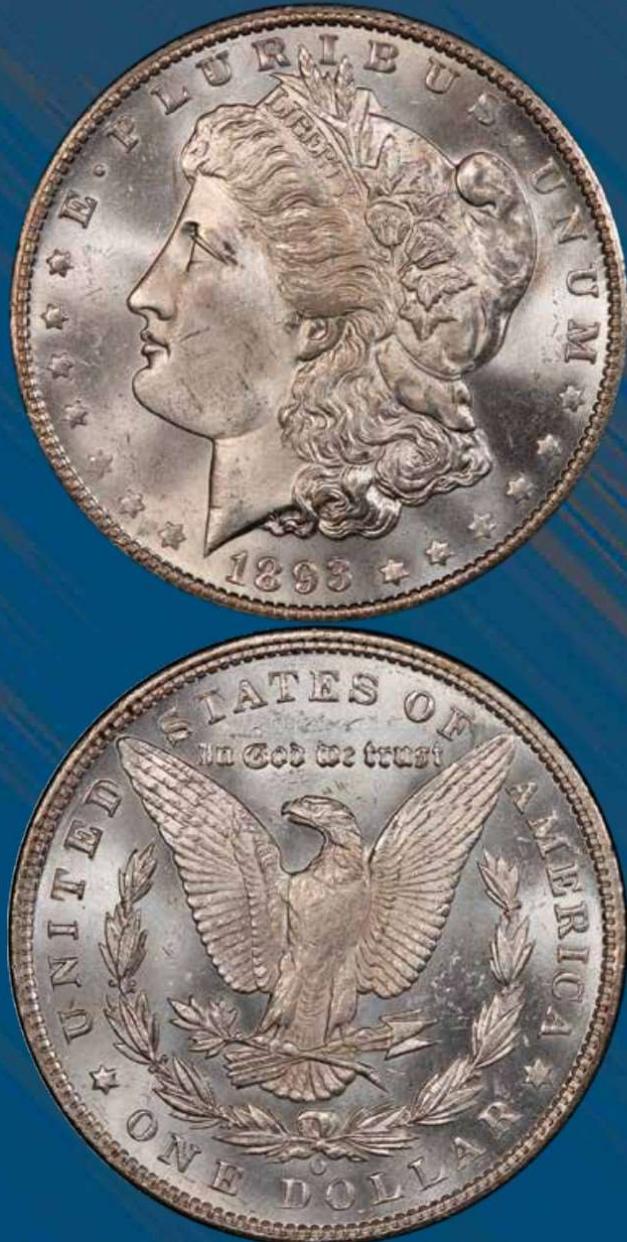

\$1 1893-O PCGS MS64 CAC

Struck during the Panic of 1893, one of the most severe economic downturns of the 19th century, the 93-O dollar had a small mintage of 300,000 and precious few escaped the ravages of extensive circulation. Quite scarce in all lower Mint State grades, and extremely RARE in GEM, this date is always in heavy demand in MS63 and MS64 grades, especially PCGS/CAC.

The present coin is VERY CHOICE, with distinct claims to a GEM category. Intense, radial cartwheel luster beams all around on both sides. There is a touch of glassy, Prooflike reflection on both obverse and reverse fields, more flashy on the reverse. The classic design elements are crisply struck up and nicely frosted, the devices are much sharper than typically encountered for the date. A tiny bag mark or two are all that keep this highly alluring coin from an even higher grade; the eye appeal is essentially that of a full GEM.

PCGS 96, NGC 36, CAC 15. The last two examples we sold brought \$30,550 and \$35,250 in our January 2019 and July 2018 Regency Auctions, respectively. More recently one sold in September 2019 for \$21,600. The current CAC CPG value is listed at \$24,200. Keep in mind that just a dozen examples have graded finer at PCGS, evenly distributed between MS64+ and MS65 and NONE higher than 65! This blazingly lustrous example will fit into any GEM set and will delight the next owner, just as it has the Blue Hill collector! Good luck, bidding will be intense. If you could find a 65, it would cost well into the six figures!

PCGS# 7224 • ESTIMATE: \$16,000+

LOT 23**\$1 1894-O PCGS MS63**

Strong, swirling luster blooms on both sides of this CHOICE conditionally scarce date! Though sometimes overlooked in comparison to the other O-mint dates from the mid-1890s, finding an attractive 63 is a challenge. Pearly silver surfaces have a strong brilliance in the smooth fields. Sharper than typical, both sides have just a few scattered marks, accounting for the grade.

PCGS 346, NGC 172. The current PCGS Price Guide value is listed at \$4,000 and the most recent example sold in our January 2020 Regency Auction for \$3,173, with the last 10 PCGS non-CAC examples selling for an average of \$3,237. Very scarce finer, bid accordingly!

PCGS# 7230 • ESTIMATE: \$2,800+

LOT 24**\$1 1895-O PCGS MS61**

CAC

The 95-O is a classic condition rarity and KEY date issue in the Morgan dollar series. From a lower mintage of only 450,000, these are incredibly RARE in any Mint State grade, even MS61, especially so with CAC approval.

The present coin is a classic BU, with no wear anywhere and better than decent luster. The satiny surfaces have a pearly sheen with a dusting of the finest iridescent tone.

Nicely defined devices are seen on both sides, showing just the lightest weakness of strike at the hair curls, typical of the date. A few ancient ticks and marks are seen, accounting for the assigned grade and not distracting from the wonderful eye appeal.

PCGS 54, NGC 61, CAC 8. Only a single PCGS/CAC example has ever sold in auction, realizing \$16,100 back in September 2011! The last non-CAC PCGS MS61 sold in our September 2019 Regency Auction for \$15,275. The current Collectors Universe value is listed at \$19,000 and the current CAC CPG value is listed at \$18,200. PCGS has graded just about 100 coins finer, including, no doubt, at least some duplication. Despite a more modest grade, there is nothing modest about this lovely coin, which has some claims to an even loftier grade. Bidding will be strong for this one!

PCGS# 7236 • ESTIMATE: \$12,500+

LOT 25**\$1 1896-O PCGS MS63**

Extremely RARE any finer, the 96-O is a common date in circulated grades up to XF45, AU's are scarce, and Mint State coins, especially MS63s are rare. Showing off a truly bold, vivid mint luster, this coin has a great look, and if there was just a touch less "chatter" CAC would certainly have beaned this one. Despite that, the eye appeal is great and the technical quality is impressive.

PCGS 307, NGC 144. The most recent examples have sold between \$3,120 and \$3,600 and the current PCGS value is listed at \$4,500.

The price more than doubles in 63+, goes up by a factor of nearly 10x in 64! WOW! This very pleasing MS63 seems to be a superb value in comparison!

PCGS# 7242 • ESTIMATE: \$2,800+

**LOT 26****\$1 1897-O PCGS MS63**

Despite a large mintage of over 4 million, the 97-O is RARE in MS63 and higher grades; a major condition rarity in the series. Brilliant mint luster swirls evenly around both sides of this fully CHOICE 97-O. Nicely struck up, even in the centers, this coin has a very good look overall. Both sides show a few tiny ticks and lines scattered about. Offering a decent eye appeal, clearly this coin belongs in another impressive Morgan dollar collection.

PCGS 316, NGC 208. Fewer than 80 have graded finer at PCGS, most of those are graded MS63+ and MS64. The last few sold in a narrow range of \$3,000-\$3,120 and the current PCGS Price Guide value is listed at \$3,750. The next full grade up jumps to a Price Guide value of \$11,000. GEMS are excessively rare and extremely difficult to locate. This CHOICE coin represents a great value.

The epitome of originality, this SUPERB GEM has just the slightest glint of iridescent silvery-white and clear gold tone over satiny surfaces. A rich mint frost radiates all over on both sides, accenting the bold smoothness and cleanliness of the surfaces and well struck devices. The eye appeal is quite lovely, and the quality is very high end.

PCGS 321, NGC 185, CAC 95. The most recent example sold in an LRCA auction brought \$1,586 in our December 2019 Regency Auction. The current CAC CPG value is \$1,880 and the current PCGS Price Guide value is listed at \$1,500. There are 36 graded MS67+ finer, and there are NO MS68s graded at PCGS after 34 years of grading coins!

PCGS 1400, NGC 1033, CAC 372. The most recent PCGS/CAC example sold in November 2019 for \$1,020, while others have sold in the \$500-\$900 range, with the current PCGS value at \$850. Keep in mind that a PCGS/CAC MS67 is a \$4,000-\$5,000 coin.

PCGS# 7266 • ESTIMATE: \$550+

**LOT 30****\$1 1900-O/CC PCGS MS65+ CAC**

As the New Orleans mint was churning out millions of silver dollars, a left over reverse die from the Carson City mint was called into service, the CC mintmark partially effaced, and then the O mintmark punched in its place. This is a truly exemplary GEM example of this popular variety with a vivid mint brilliance and sharply struck design elements. The surfaces display just a tiny trace of contact, appropriate for the assigned grade and CAC endorsement, nothing serious or detrimental to the visual allure.

PCGS 970, NGC 178, CAC 111. PCGS has graded 56 in MS65+. The current PCGS Price Guide value is listed at \$2,550 and the average of the last 10 PCGS/CAC examples sold for \$2,142. The PCGS value jumps to \$4,600 just a half a grade up--keep that in mind when bidding. Good luck.

PCGS# 7268 • ESTIMATE: \$1,800+**LOT 31****\$1 1901-O PCGS MS66 CAC**

A vivid, shimmering mint luster has a bold satin bloom. Very crisply defined devices for the date, the details are well impressed on the planchet. Minimal marks are observed, and the cheek is sleek, clean, and very pleasing. Overall a great looking O-mint Morgan.

PCGS 580, NGC 498, CAC 144. Surprisingly RARE any finer. The most recent example sold for \$575 in February 2020. The CAC CPG value is listed at \$585 and the PCGS Price Guide value is listed at \$600. The value jumps to \$3,250 in MS66+ and \$22,500 in MS67!

PCGS 790, NGC 656, CAC 256. The current PCGS Price Guide value is \$400. Recent examples have sold between \$288 and \$750, most falling in the \$300-\$400 range. Scarce finer, this is an ideal grade for most collectors.

PCGS# 7280 • ESTIMATE: \$300+**LOT 33****\$1 1903-O PCGS MS66+ CAC**

A lovely, totally original GEM example of this famous Morgan dollar issue. Virtually untoned, save for a delicate dusting of iridescent silver-white hues. Sharply struck up for a New Orleans date, this coin has a wonderful look. A famed date, which until several bags were discovered in the 1960s, was one of the RAREST in Mint State.

PCGS 901, NGC 364, CAC 206. There are 98 graded MS66+. The last two PCGS MS66+ CAC sold for \$1,451 and \$1,500. The current PCGS Price Guide value is listed at \$1,650. A blast white GEM! Brilliant luster boldly glows with vivacity that is a true delight. Well struck details are crisp and the cheek is very clean and frosty.

PCGS 1149, NGC 1660, CAC 350. CAC Approved PCGS graded MS66s have been selling for about \$270 on average, but this one is above average and should sell for closer to the \$325 PCGS Price Guide value. A great coin that should be carefully considered.

**LOT 35****\$20 1850-O PCGS AU53**

Struck from the first year of the denomination, the 1850-O started off a very special subset of double eagles. The 1850-O double eagle saw a generous mintage of 141,000 pieces, but the vast majority went into circulation. Very scarce in any AU grade, and there are precious few graded finer than the currently offered AU53. Overall, there are about 600-800 known today in all grades, with about 50-100 reported from an overseas source that came to market in the mid 1990s and there were 10 from the recovery of the S.S. Republic. A warm, satiny mint luster glows on both sides, highlighting a tangerine-tinged yellow gold

coloration. Lightly worn surfaces show moderate friction on the fields, and some natural contact marks from its time in commercial channels. This is typical of the date. The central devices show good definition, showing just some light peripheral weakness. The eye appeal of this CHOICE AU piece is above average for the date, which often comes lacking in that department.

PCGS 32, NGC 69. Three PCGS AU53s sold in 2019, ranging from \$13,200 to \$14,400 and the current PCGS Price Guide value is listed at \$17,500. The extensive Fairmont Collection contained a PCGS AU53 that sold in the 2018 ANA auction for \$16,800. Keep in mind that the prices realized double in AU55. An important coin that is a great way to start off this impressive cabinet of New Orleans double eagles.

PCGS# 8903 • ESTIMATE: \$12,000+

LOT 36**\$20 1851-O PCGS AU58**

With a mintage of 315,000, the 1851-O is the most common of all New Orleans \$20 gold pieces. That said, in AU58, this date is decidedly scarce and is extremely RARE in Mint State. An perhaps 2,000 or more examples are known in all grades today, with perhaps 15-20 in all Mint State grades. Rich, orange-gold toning graces both sides of this sharply struck AU58. Sharp definition, as this date is known to be sharper in strike compared to the 50-O. Lustrous accents cling to the protected areas of the devices. Both sides have the typical choppiness that is common to these early Type 1 double eagles, especially the New Orleans issues.

Overall the lustrous nature of the surfaces, sharp strike, and warm orange-gold hue impart a strong visual allure.

PCGS 30, NGC 80. The current Collectors Universe value is \$13,500 and the most recent example sold for \$10,500 in the 2019 ANA auction. Prior to that, one sold in December 2018 for \$12,600. PCGS has graded a total of 15 finer, 14 of which are in Mint State, the finest is a single MS63. Anything finer will be at least \$20,000. This is a great date to represent the New Orleans mint in a mint mark set.

\$20 1852-O PCGS AU58 CAC

The 1852-O double eagle is regarded by specialist experts as being among the most common New Orleans mint double eagles, and the certified populations bear this out. However, over the years, so many have been dipped, stripped, and processed in such a way that finding eye appealing, original examples has proven quite the challenge!

The present CAC approved "Gem" AU is an exceptional example! Sharply struck devices show off full, crisp, complete definition on the hair curls and eagle's feathers. A rolling, cartwheel bloom enlivens the medium gold coloration with light, original orange and olive-green gold tones. While Doug Winter does not list any interesting die varieties, we noticed a tiny die crack from the rim in the center of W to the corner of E in TWENTY. We also note some minor repunching of the Y in LIBERTY. The surfaces have some light, minor contact, with no singularly distracting marks. The eye appeal is very strong for a New Orleans \$20 and even though it is considered a "common date" only 15-20 are estimated to grade Mint State, and this SUPERB AU coin is not far from that condition.

PCGS 45, NGC 83, CAC 13. The last PCGS/CAC coin to sell in auction realized \$23,400 in June 2018 as part of the Fairmont Collection. That coin did not have the stunning eye appeal of the presently offered 52-O and it more closely resembles the one that sold in the 2014 ANA auction for \$31,725. Disregard the price guides, and use the APRs for guidance on this one! Good luck.

LOT 38**\$20 1853-O PCGS AU58**

One of the FINEST bakers' dozen PCGS-graded examples of this conditionally RARE New Orleans mint double eagle. The mintage was lower than previous years, resulting in only 71,000 being struck. Most of these went into circulation, the vast majority of the 400-500 estimated survivors grade in the VF to XF range; Choice AU (55 and 58) are indeed quite difficult to locate, and after 33 years of operations, PCGS has graded just TWO in Mint State (an MS60 and an MS63), neither of which have ever sold in auction. There have been no major hoards discovered, as earlier years, no small group from Europe, and between the S.S. Republic and S.S. Central America, fewer than ten examples were found.

The present AU58 has an exceptional, original look. The devices are well struck up, with just a touch of the most minute friction seen on the highest points. While the surfaces appear "choppy" which is normal for these large gold coins, no single mark or line stands out in severity and only really appear with the aid of a glass. The naked eye impact is essentially non-existent. The warm honey-tangerine gold surfaces are alive with a hint of glowing underlying luster. The eye appeal is wonderful.

PCGS 11, NGC 27. CAC is VERY TIGHT on these, out of the 38 AU58s graded by PCGS and NGC together, just 1 has been approved at CAC. That speaks volumes how these usually come. The last PCGS-graded example brought \$18,400 nearly a DECADE ago. More recently a PCGS/ CAC AU55 sold in October 2014 for \$22,325. The current Collectors Universe value is listed at \$23,500 and that level may well be exceeded when this wonderful CHOICE AU58 example crosses the block! Bidding will be fierce.

LOT 39

\$20 1854-O PCGS XF40

Legend Rare Coin Auctions is proud to offer this important numismatic rarity, the 1854-O double eagle. The rarest New Orleans mint \$20 started with a tiny mintage of only 3,250 pieces, of which only 30-40 examples are thought to exist. In Doug Winter's 2018 edition of his reference on New Orleans mint gold coins, there are 24 examples enumerated, with 28 other auction records that are likely earlier appearances of enumerated examples. Falling in the typical grade range of XF40 to AU53, a number of known survivors of this extreme rarity have major condition issues that preclude numeric grading at either PCGS or NGC.

As a result of the California Gold Rush, the federal government established a branch mint in San Francisco in 1854, eliminating the need for local, private coining firms and the need to ship gold to New Orleans for coining into double eagles. As such, the 54-O \$20 has the lowest mintage thus far in the series, and most disappeared into local commercial channels. There are NO Mint State survivors known, and there have been no hoards of any kind found.

Prior to the publication of Augustus Heaton's numismatic reference on branch mint coins in 1893, very few collectors ever focused on branch mint issues. Likewise, the larger sum of money a double eagle represented in those days precluded specialized collecting of them. The extensive 1914 ANS Exhibition had a display of double eagles, which featured a complete set of Philadelphia mint issues, not a single branch mint coin was displayed. That changed in 1933, following Franklin Roosevelt's Executive Order in 1933 which ended the circulation of gold coin in the economy, and ordered the citizenry to return all gold, save for those with a numismatic value. At this point, wealthy collectors began to take note. The first recorded auction record in the Winter reference was the December 1933 Thomas Elder sale of the Nickerson-Butler-Edwards Collections, lot 1124. Legendary collections of the past like Louis Eliasberg, Harry Bass, Amon Carter, Richmond, John J. Pittman, James A. Stack, and Dallas Bank, all had examples. The Josiah K. Lilly Collection coin, which was likely sourced via Stack's in the early 1960s, is now impounded in the Smithsonian.

The Blue Hill Collection's XF40 example presents itself exceptionally well. Mild, even wear is noted on both the obverse and reverse. This circulation was otherwise generally uneventful, leaving the surfaces free of any significant marks or scratches (a couple of minor ticks and a short hairline on the obverse field, these do not detract from the otherwise great eye appeal). A few light lines, visible only with the aid of a strong glass, appear at certain angles. The color is amazing, with a warm olive-gold hue overall with some soft iridescent hues in the reverse legends. Despite the wear, the details retain bold definition throughout. The eye appeal is exceptional in every way.

PCGS 3, NGC 0. The only PCGS XF40 to sell in auction was back in July 2005 where it sold for \$241,500. Most known examples can trace their pedigree to at least the 1970s. The present coin's earliest recorded appearance was in the September 1988 Bowers and Merena sale of the Estates of Philip M. Mann, Jr. and Glenn B. Smedley, where it appeared as lot 549. No earlier pedigree was recorded. More recently it sold in the 2014 FUN auction for \$284,000. The current Collectors Universe value is listed at \$285,000. Needless to say, this date is ultra rare any finer, with just a dozen graded finer at PCGS, NONE of which have sold in the last five years! This is an ultra rare opportunity to add this important American numismatic rarity to your cabinet. The addition of any 1854-O double eagle to any collection elevates it to a legendary status. Now is your chance to do the so!

\$20 1855-O PCGS XF45+ CAC

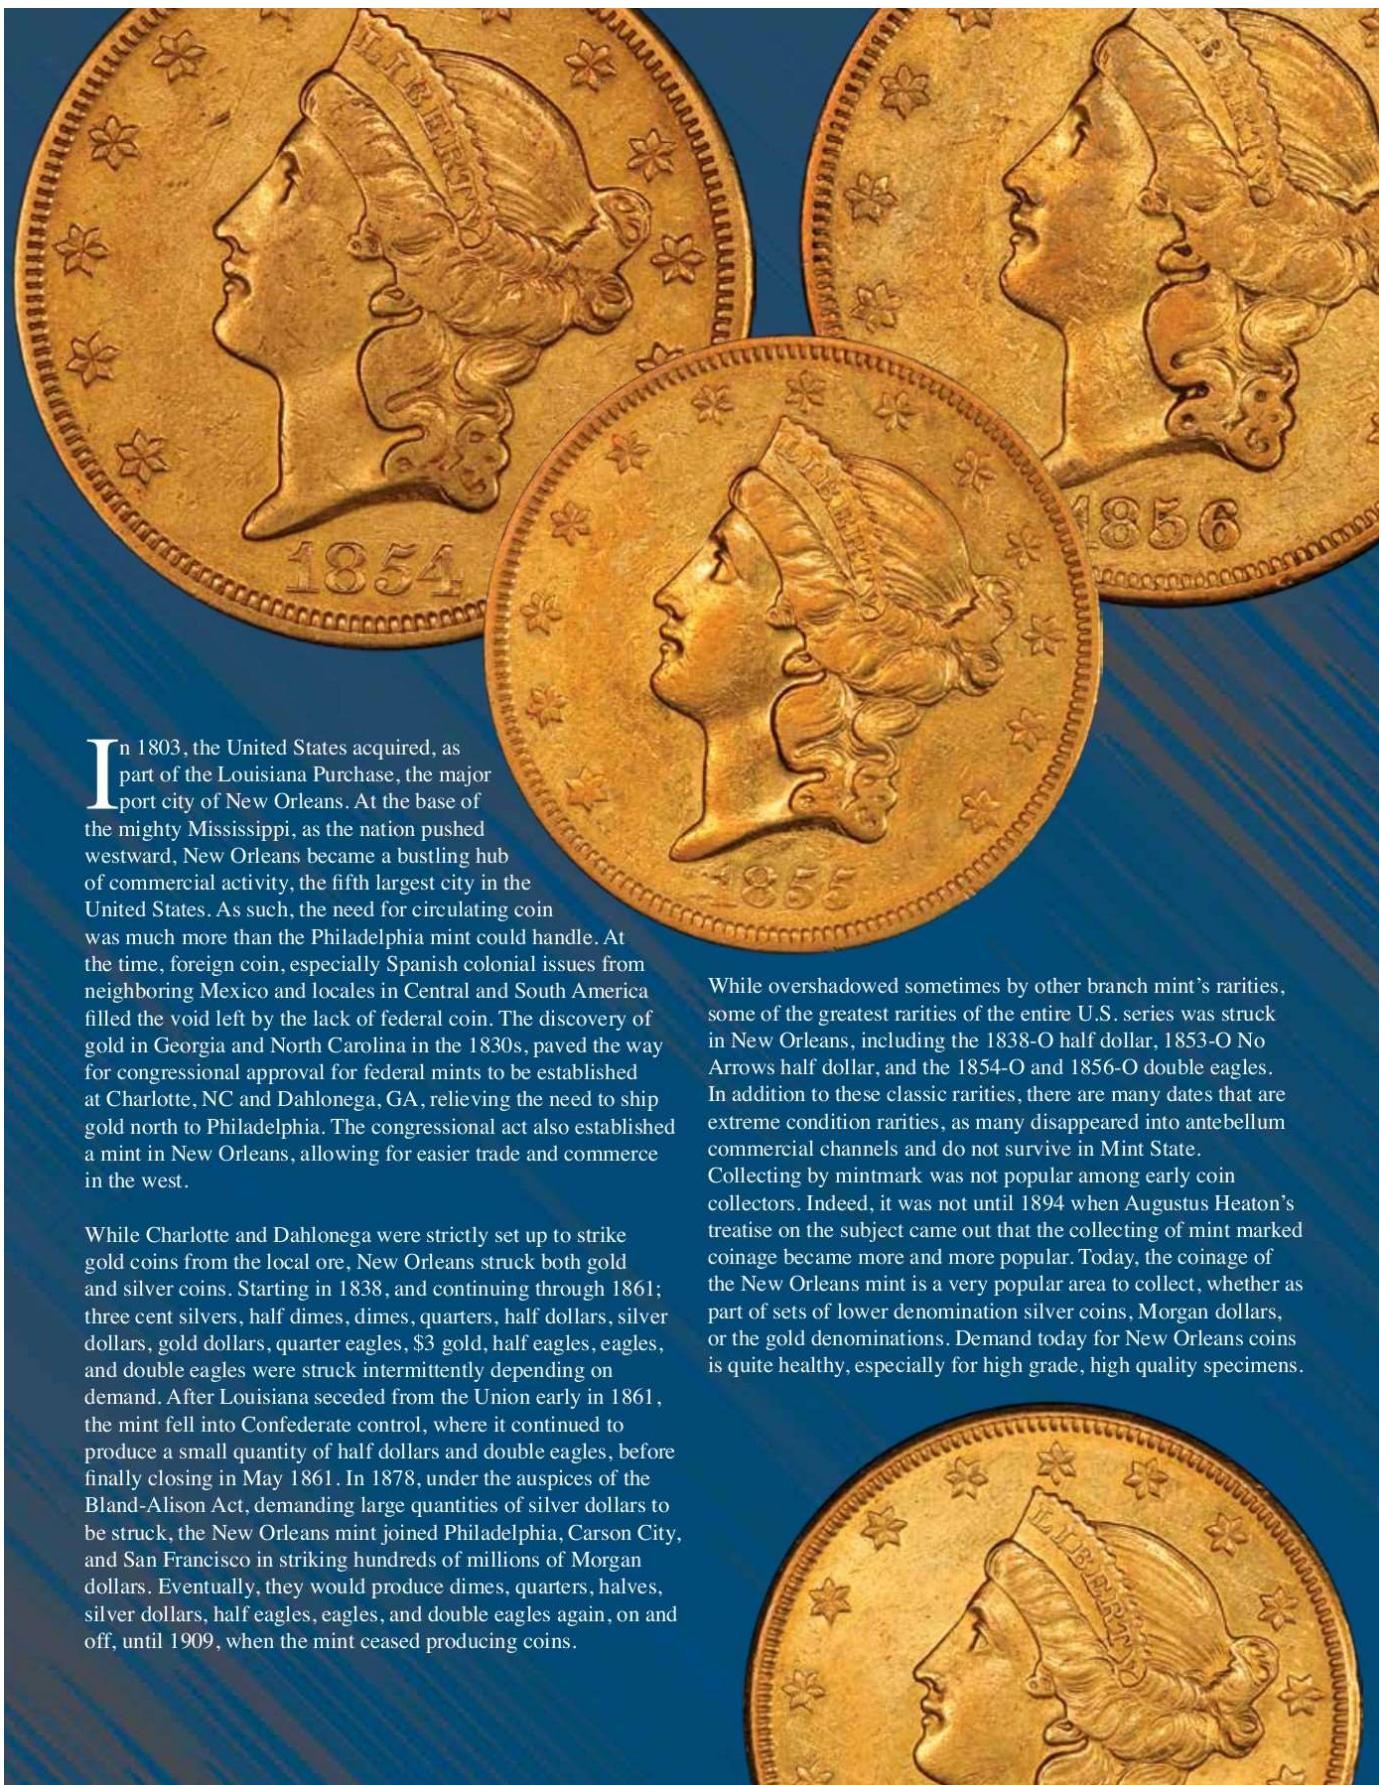

While higher than the 1854-O and 1856-O outputs, the mintage of 8,000 New Orleans double eagles in 1855 was clearly tiny. The vast majority of these disappeared right into circulation, their use in antebellum commerce was extensive. Survival estimates range from 80-90 (Doug Winter) and 132 (PCGS CoinFacts). Regardless, it is the 3rd rarest date in the series, behind the 1854 and the 1856. Most examples are VF and XF, with pleasing, original pieces being the exception, not the rule. There were just three examples in the S.S. Republic recovery, these grading NGC AU58, and rank among the FINEST of the date. Since most collectors will only ever dream of owning the 1854-O and 1856-O, this is the rarest date in the series that can realistically be obtained. David Akers noted that this date was one of his favorite dates in the denomination and thought it was one of the most unappreciated in the series.

Showing the typical striking weakness that is usually encountered for the date, though Liberty's hair curls and eagle's feathers are well defined, despite being moderately circulated. A few marks are noted, naturally obtained during its time in commercial channels, the worst are located on the reverse. The color is exceptional and is normal and very pleasing, not your typical dipped out, conserved example that appears on the market and has a wonderful, fresh look.

PCGS 17, NGC 15, CAC 4. This is the ONLY XF45+ graded by either service, and we can tell you it is not the NGC XF40 CAC that sold in May 2015 for \$51,406, nor is it the PCGS XF45 CAC that sold for \$43,475 in April 2017. PCGS has never graded a single coin in any Mint State grade. PCGS lists a value of \$47,500 in the current Price Guide, and the CAC CPG value for an XF45 is \$52,000. Even a non-CAC PCGS XF45 sold in June 2018 for \$43,200! Worthy of a strong bid from the specialist collector, this New Orleans rarity will delight anyone looking for a very special example of this very challenging date. Bidding will be intense!

PCGS# 8915 • ESTIMATE: \$36,000+

In 1803, the United States acquired, as part of the Louisiana Purchase, the major port city of New Orleans. At the base of the mighty Mississippi, as the nation pushed westward, New Orleans became a bustling hub of commercial activity, the fifth largest city in the United States. As such, the need for circulating coin was much more than the Philadelphia mint could handle. At the time, foreign coin, especially Spanish colonial issues from neighboring Mexico and locales in Central and South America filled the void left by the lack of federal coin. The discovery of gold in Georgia and North Carolina in the 1830s, paved the way for congressional approval for federal mints to be established at Charlotte, NC and Dahlonega, GA, relieving the need to ship gold north to Philadelphia. The congressional act also established a mint in New Orleans, allowing for easier trade and commerce in the west.

While Charlotte and Dahlonega were strictly set up to strike gold coins from the local ore, New Orleans struck both gold and silver coins. Starting in 1838, and continuing through 1861; three cent silvers, half dimes, dimes, quarters, half dollars, silver dollars, gold dollars, quarter eagles, \$3 gold, half eagles, eagles, and double eagles were struck intermittently depending on demand. After Louisiana seceded from the Union early in 1861, the mint fell into Confederate control, where it continued to produce a small quantity of half dollars and double eagles, before finally closing in May 1861. In 1878, under the auspices of the Bland-Allison Act, demanding large quantities of silver dollars to be struck, the New Orleans mint joined Philadelphia, Carson City, and San Francisco in striking hundreds of millions of Morgan dollars. Eventually, they would produce dimes, quarters, halves, silver dollars, half eagles, eagles, and double eagles again, on and off, until 1909, when the mint ceased producing coins.

While overshadowed sometimes by other branch mint's rarities, some of the greatest rarities of the entire U.S. series was struck in New Orleans, including the 1838-O half dollar, 1853-O No Arrows half dollar, and the 1854-O and 1856-O double eagles. In addition to these classic rarities, there are many dates that are extreme condition rarities, as many disappeared into antebellum commercial channels and do not survive in Mint State.

Collecting by mintmark was not popular among early coin collectors. Indeed, it was not until 1894 when Augustus Heaton's treatise on the subject came out that the collecting of mint marked coinage became more and more popular. Today, the coinage of the New Orleans mint is a very popular area to collect, whether as part of sets of lower denomination silver coins, Morgan dollars, or the gold denominations. Demand today for New Orleans coins is quite healthy, especially for high grade, high quality specimens.

LOT 41

\$20 1856-O PCGS XF45 CAC

Like the 1854-O, the 1856-O is a classic American rarity, usually only offered when extensive collections of double eagles, or specialized collections of branch mint rarities are offered in auction. With a recorded mintage of a mere 2,250 it ranks as the second rarest New Orleans double eagle with an estimated 30-40 known in all grades. Aside from the spectacular Specimen-63 that last sold for \$,1437,500 in 2009, there are NO Uncirculated examples known. Many survivors have major flaws which would preclude PCGS or NGC grading, and there are two impounded in the National Numismatic Collection at the Smithsonian Institution. Slightly more common overall than the 54-O, it is rarer in higher grades than the 54-O.

As with the other coins in this impressive collection, you can tell the Blue Hill collector carefully selected his 56-O with an eye toward great color. Warm and deep olive-green gold patina with wonderful orange highlights. Hints of flashy, somewhat reflective luster survives and clings for dear life to the reverse fields. Like the typical survivor of this rarity, the surfaces are heavily abraded, but unlike a majority of known examples the surfaces have not been dipped or conserved in any way. The eye appeal is above average for the date.

There are twenty five examples enumerated by Doug Winter in his 2018 reference on New Orleans gold coins, which this one is listed as #18. The published pedigree goes back to the 2009 FUN auction, without any reference to any earlier appearance. We can tell you it is not the PCGS XF40 that sold in February 2001, nor is it the the Bullock coin (NGC XF45+ that sold in September 2010) or the Richmond NGC AU50 that sold in July 2004.

PCGS 3, NGC 1, CAC 2. It is likely that this coin is counted twice on the CAC Population Report. In the 2009 FUN auction, where it made its modern auction premier, it sold for \$276,000 and brought that again in October 2011. Off the market for nearly a decade, this coin will excite anyone seeking an example of this date for their set. Note that the last PCGS AU50 sold in August 2006 for \$345,000. The current CAC CPG value is \$332,800 and this coin will bring well in excess of the current Collectors Universe value. Only one CAC coin is finer, an AU50. Following the three years of tiny mintages, the mintage rose to 30,000 in 1857. However, the survival rate is low, with just 200-250 known today. The majority fall in the VF to XF range, with AUs being RARE and Mint State examples being excessively so. A good proportion of known examples appear to have come from a small hoard of 40-50 pieces found in Europe in the 1990s and there were only four on the wreck of the S.S. Republic.

Like most examples of this date, the surfaces show numerous abrasions. None of these are singularly deep or large. The remaining luster reveals a bold reflective texture, especially in the protected areas of the design. The devices are sharply impressed by the dies, and the highest points show only the slightest hint of friction.

PCGS 17, NGC 30. The most recent example realized \$16,800 in the 2019 FUN auction and prior to that, no PCGS AU55 had sold since 2010. The current Collectors Universe value is listed at \$21,000. Ex Eliasberg Collection.

This fantastic coin traces back to one of the greatest and most famous collections of all time, Louis E. Eliasberg. The mintage of 35,250 double eagles makes this date very scarce overall, with 225-275 known in all grades, most being in the VF-XF range. CHOICE AU pieces as found here are elusive. RARE any finer, and prohibitively so in Mint State. Ravages of the Civil War and economic upheavals since resulted in many having been melted down. No large hoards of this date have ever been found, there were only six on the S.S. Republic and a group of maybe 40-50 from VF to AU, probably sourced from an old European holding, came into the market in the mid 1990s.

This brilliant AU has a wonderful bright orange-gold coloration with robust reflectivity in the protected areas. Even using a strong glass, the amount of circulation in the fields and on the highest points of the devices, barely perceptible. A few lines are noted, and a couple of minor scratches, along with the unique toning pattern on the reverse makes this coin an exact match to the old black and white photo from the October 1982 Bowers and Ruddy sale of the U.S. Gold Coin Collection (Eliasberg), lot 895. The eye appeal is exceptional, offering a visual allure better than some we have seen in AU58.

This coin's pedigree is traced to the William Cutler Atwater Collection, sold by B. Max Mehl in June 1946, where this coin was offered as lot 1340. Eliasberg purchased it directly from the Atwater sale. Sold in October 1982, lot 895. More recently it appeared as lot 1948 in Stack's November 2009 74th Anniversary Sale, where it sold for \$27,600.

PCGS 20, NGC 28. The most recent PCGS AU55 sold in the 2019 ANA auction for \$28,800 and prior to that, one sold in June 2018 for \$38,400. The current Collectors Universe value is listed at \$35,000. While PCGS has graded six finer than AU58, none have sold since the Bass MS62 sold in May 2000. This exceptional coin will bring a very strong bid when it crosses the block. Possessing a great visual allure and awesome pedigree, this CHOICE AU55 has the entire numismatic package!

Deliveries of California gold dropped in 1859, and the mintage plunged to 9,100. Circulating extensively in the deep south and in the frontier west of the Mississippi, most examples are circulated and/or impaired. The 1859-O is a rarity in any grade, but it becomes extremely rare in any AU grade, and virtually unknown in Mint State. Indeed, this coin ranks behind the 54-O, 56-O, and 55-O as the 4th rarest New Orleans \$20. Doug Winter estimates 80-90 examples survive, the majority in VF and XF grades.

The presently offered AU50 is an important coin, worthy of any important double eagle collection. Clearly this coin is above average in terms of strike and was chosen by the collector for this. He also must have loved the deeper orange-gold coloration and semi-Prooflike reflective luster of the reverse. The surfaces are not hacked up as typically seen, but we do note some minor directional hairlines on the obverse from an ancient light cleaning. These are not distracting, and are normal on this date, which pretty much every survivor shows. The eye appeal is exceptional considering what is typically seen for the 59-O.

PCGS 13, NGC 11. These trade very infrequently in auction, typically around one PCGS examples sells every 18-24 months; and NGC coins come up less often. The most recent PCGS example which was ex Harry Bass Collection, sold in October 2018 for \$38,400, but that coin was a lighter gold and displayed more contact. This piece is very attractive and should bring more. Prior to the Bass coin, one sold in February 2016 for \$41,125. The current Collectors Universe value is listed at \$50,000. The Fairmont Collection had a PCGS AU53 that brought \$66,000 in June 2018. The finest graded by PCGS are a pair of MS60s, which includes the former NGC AU58 that sold in September 2016 for \$105,750. This is about as high a grade as most collectors can afford, and with its good looks will witness strong bidding from the southern branch mint enthusiast.

LOT 45**\$20 1860-O PCGS AU53**

Another exceptionally RARE New Orleans double eagle, similar in rarity overall to the 59-O, the mintage of 6,600 started life as a rarity. Extensive circulation in the antebellum south and during the Civil War, which would break out the following year, would likely cause a large number to be melted. The typical survivor, which number just under 100 examples in all grades is VF or XF, often conserved, cleaned, polished, or heavily abraded, or some combination above.

This is a pleasing AU53, the surfaces less abraded than usually encountered, though with a glass, we can find a number of small ticks and friction on the high points and in the fields. The reverse maintains a wealth of original Prooflike reflection in the fields, and there is some evidence of it in the obverse. The eye appeal is above average for the date.

PCGS 12, NGC 14. The most recent example to sell in auction realized \$57,575 in May 2017; prior to that, two sold in 2014 for \$55,813. The current Collectors Universe value is listed at \$65,000. NOTE: There are 10 graded finer at PCGS, the most recent finer coin to sell in auction was back in July 2009! For a 59-O, the eye appeal is nice, and worthy of a very advanced cabinet of southern branch mint gold and this one will see very spirited bidding for sure!

LOT 46**\$20 1861-O PCGS AU55+**

From an historical standpoint, the 1861-O is probably the most interesting, and most important New Orleans mint double eagle. It is not the lowest mintage, nor in absolute terms is it the rarest (it is ranked #7 in overall rarity). A total of 17,741 double eagles were struck, under the authority of three different governments. From January 1-26, 1861 the Federal government struck 5,000; after Louisiana seceded from the union, but before joining the Confederacy, 9,750 were struck between January 26 to March 31; the final 2,991 pieces were struck by the Confederate government between April 1 to April 30, 1861, before the mint was shut down. Most known examples grade VF to XF, and all told, about 150-175 examples are known today in all states of preservation. CHOICE AU pieces as seen here are exceptionally RARE, and Mint State coins number in the single digits. The majority of known examples have a weakly struck base of the date, especially at 186. At a certain point, the dies were lapped, leaving them moderately reflective, giving a number of higher grade pieces a Prooflike look. At the time the die was lapped, a mint employee engraved some lines at the base of the 8 in an attempt to strengthen the date. There is a small number have a fully struck date. While Ron Guth and Jeff Garrett note "unfortunately, it cannot be determined with certainty which mint struck which coins," Walter Breen opined, "these cannot be told apart with certainty; possibly the rebel striking are those with the greatest weakness at the base of the date."

The present AU55+ is a condition census quality piece at PCGS, just nine coins are graded finer, 7 in AU58 and 2 in MS60. The Blue Hill Collector carefully selected this high end and very eye appealing AU55+ for its bold strike and wonderful semi-Prooflike reflection. Coming from the later die state, a glass reveals the strengthening of the base of the 8 in the date. All other details are generally very well impressed from a bold strike from the dies. There are a few minor ticks and marks noted, widely scattered, but not hacked up as usually encountered for this date. The obverse is cleaner than the reverse. The surfaces are exceptionally lustrous with a bold reflection, which is highly flashy and brilliant. This is a date that often is lacking in eye appeal, this coin is NOT one of those!

PCGS 1, NGC 0. The Collectors Universe value is listed at \$81,000. Auction comps are rare, with the last two PCGS AU55s selling over two years ago, realizing \$66,000 and \$67,563 and a PCGS AU58 selling for \$78,000 in February 2020. That said, this coin's eye appeal is superior and should bring a stronger bid for sure. We anticipate very strong bidding from the specialist collector when the hammer falls on this really CHOICE AU 1861-O \$20. Congratulations in advance for adding a great coin to your Civil War collection.

The Bland Alison Act of 1878, which created the Morgan dollar and ordered the coinage of hundreds of millions of silver dollars, reopened the mint in New Orleans, which had been closed since 1861 and the start of the Civil War. While the mint's efforts were focused mainly on silver dollars, some gold was struck there as well, intermittently. In 1879, the only issuance of double eagles was produced, with a tiny mintage of only 2,325. As a one year only type coin for the mint (the only Type III double eagle from New Orleans), demand for the 115-135 estimated survivors has always been very strong. The majority of known specimens are VF and XF grades, and even most of those that are numerically graded are not 100% original, showing signs of a long ago cleaning or other issue. Properly graded and original AU pieces are genuinely VERY RARE. This CAC approved PCGS AU53 is an amazing example for any collector.

Highly reflective, lustrous surfaces beam all over, despite the very light friction from circulation. The details are crisply struck up on both sides, the devices have a nice frost, which at angles, contrasts very nicely against the depth of the reflective fields. There are, to be expected on a large gold coin like this some very minor contact scattered about, but they have minimal impact on the outstanding eye appeal.

PCGS 6, NGC 7, CAC 1. This coin is very distinctive and cannot find an auction record for it, and this will be the first time a CAC example sells in auction. The PCGS auction records are, most recently \$57,600 in November 2019 and prior to that, an example brought \$66,000 in December 2017. The current Collectors Universe value is listed at \$66,500 and the CAC CPG value is \$76,200. These are VERY RARE any finer, the last AU55 sold in 2004, and none of the three PCGS Mint State coins have sold in auction. This gorgeous AU53 is worthy of another world class cabinet and will see very strong bidding from the specialist collectors. Good luck, this is a great looking coin that will invite very fierce competition.

A majestic GEM with a SUPERB provenance! This is the Garrett-Naftzger-Missouri Cabinet Collection example, and this coin's visual allure and technical qualities are indicative of that illustrious pedigree!

Breen-1A, R-6. An amazingly high quality example with an equally impressive provenance. Beautifully preserved surfaces show much mellowing mint red toning down with some soft bluish brown. The fields offer plenty of flash to the smooth surfaces. We note a few areas of deeper toning that will forever serve as pedigree markers for this GEM. As to be expected from a proof, all the devices are crisply imparted from a strong strike; all the hair details, star centers, beads, leaves, etc are fully rendered. A minute number of unimportant flecks are noted under a strong loop, but none detract from the superb eye appeal of this gem!

This important coin originated in the John Work Garrett Collection, some time in the 1890s, and was donated to Johns Hopkins University in 1942. Sold as lot 41 in the November 1979 Bowers and Ruddy sale of the Garrett Collection where it was bought by R.E. "Ted" Naftzger. Sold in Stack's Session of Auction #89, lot 1525 to R. Tettenhorst. Gifted to the Missouri Cabinet, Goldberg's January 2014, lot 186, where it realized \$60,375.

L1C 1801 S-219. 3 ERRORS. PCGS AU53 CAC

Legend Rare Coin Auctions is proud to offer this VERY IMPORTANT EAC treasure! Among the absolute finest graded at PCGS for this popular Red Book type, this S-219 is within the PCGS Condition Census and finest graded at PCGS, with just three coins graded finer, AU58, MS60 BN and MS62 BN.

Ultra smooth surfaces for an early Large Cent show off a very pleasing medium brown color with some hints of mahogany and olive that come out when rotated in a light. The surfaces offer a glossy finish with some surviving mint luster clinging to the protected areas of the devices. A close inspection with a strong glass reveals a few very minor lines and ticks, but nothing that is singularly detracting with the naked eye. The quality is very high end for the grade, and you really cannot beat the eye appeal.

The 3 Errors reverse are very interesting, clearly the engraver at the mint was rushing or otherwise not paying attention as he punched the devices into the die. The most evident error is the fraction, written as 1/000 rather than the proper 1/100. Second, either the engraver could not find the U punch or it was broken, regardless, UNITED is spelled out IINITED. The final of the three errors is that there is only 1 stem on the wreath, not two. This reverse die was matched to two different obverses, used in the VERY RARE S-218, and on this more "common" S-219. Since this is a later usage of the reverse die, it does show multiple major die cracks and clash marks, all artifacts of the early minting process, adding allure to the look.

PCGS 2, NGC 0, CAC 1. We cannot find a previous appearance in auction. This does not appear to match any of the coins listed in Breen's census. We can tell it is not the NN64 coin, which was struck from an unbroken reverse die, nor does it match the Bareford-Halpern coin, which is currently graded PCGS MS62 BN and sold in February 2017 for \$108,688. The "EF45" from Auction '79 found its way to the Tom Reynolds Collection as PCGS AU58 CAC that sold for \$73,438. The "EF40, sharpness of AU50 but cleaned and recolored" is the PCGS AU53 ex Husack, Holmes, and Mervis, which realized \$54,344 in January 2014. As the third finest PCGS-graded example and the second finest approved by CAC, we know there will be intense bidding from all sorts of early copper enthusiasts when this one crosses the block. This coin is truly bound for a WORLD CLASS collection of early U.S. Large cents and we know it will bring a very strong realization. Congratulations in advance for adding such an important coin to your collection!

N-13, one of the Randall Hoard coins, easily identifiable by the die crack that encircles the obverse. Exceptionally brilliant cartwheel luster radiates boldly on both sides. Soft chocolate brown toning mixes with olive, mahogany, and light orange-gold that are very pleasing. Sharply struck devices and generally clean, smooth surfaces give this GEM a great look!

PCGS 162, NGC 127, CAC 71. The average for the last 10 PCGS MS65 BN CAC to sell in auction is \$2,388 and the current PCGS Price Guide value is listed at \$2,350 and the CAC CPG value is listed at \$2,060. RARE any finer regardless of color designation, this GEM is bound for a wonderful type set.

Tied with perhaps two other coins for TOP POP honors! What a wonderful JEWEL this SUPERB RED GEM is! Boldly lustrous this gorgeous Civil War era SUPERB GEM is sharply struck and free of any discolorations, flecks, ticks or marks of any kind. The eye appeal is truly amazing.

PCGS 16, NGC 1, CAC 7. There are 3 in MS66+ RD for this Fancy 5 variety and

NONE FINER. The two most recent PCGS/CAC MS66 RDs sold for \$8,100 in August 2019 and the ESM coin sold for \$66,000 in the 2018 ANA auction. In regular MS66 RD, the CAC CPG value is listed at \$11,200. This SUPERB coin should bring a very strong price when it crosses the block! Indian cent collectors be ready!

A lustrous GEM. Brilliant, rose-salmon-red surfaces have a bold look. Some very minor flecks and some delicate tone can be seen only with the aid of a strong glass and only at certain angles. The devices are sharply struck up and the eye appeal is better than decent!

PCGS 70, NGC 20. RARE any finer. The most recent examples have sold in the \$780 to \$1,140 range and the current PCGS Price Guide value is listed at \$1,600. A neat looking example for this date that rarely comes in red.

You want this beauty for July 4th. It is one heck of a firecracker!

Killer deep mirrors explode like just lit firecrackers—KABOOM! The mirrors also have great clarity and are super clean save for a light line or two. When you twirl the coin you are nearly blinded by the tremendous light watery flash. Both sides enjoy a ton of firecracker Mint red that mixes with original bursts of gold/golden brown colors. This is NOT splotchy or spotted. There actually is some contrast. All of the details are lightly frosted and have full strikes. The eye appeal will blow you away!

PCGS 85, NGC 70, CAC 33. The current PCGS CAC value is \$7,190.00. We expect this coin to be love at first and every sight to the new owner. It will be a stand out in any GEM collection!

While PCGS does not certify Cameo Proofs in other color designations other than Red, NGC does, on the rare occasion where the toning does not impede the strength of the contrast. This SUPERB GEM has bold contrast between the fields and the devices, particularly on the obverse. The color is inspiring, with the vast majority of the surfaces bold original red color, with just a dusting of deeper, "burnt brick" color on the reverse. The mirrored fields are deeply reflective and offer a brilliant flash, enlivening the surfaces. The eye appeal is excellent.

PCGS 0, NGC 1, CAC 1. There are no auction records for this coin having sold, and no CAC-approved PR67 RB has ever sold in auction. The current CAC CPG value is listed at \$3,440 without the CAM designation. This is a real prize for anyone working on a collection of Proof Indian Head cents, worthy of a great set and strong bid.

One of the most famous 20th century issues, the S V.D.B. is a coin that even non-collectors have heard of in passing. Bold swirling cartwheel luster rolls over this important KEY DATE. A delightful Premium GEM for any collector, the present coin is nicely struck on both sides. Brilliant mint RED color has taken on some subtle and very attractive rose-gold tones. As expected for the assigned grade, the surfaces are devoid of any serious marks or flecks, anywhere. Fewer than a half a million were struck and demand always outstrips supply.

PCGS 241, NGC 38. The most recent example brought \$10,200 in February 2020 and prior to that, these had been selling generally in the \$6,600 to \$11,000 range. The current PCGS Price Guide value is listed at \$10,000 and keep in mind that the value jumps to \$24,000 in 66+ and \$65,000 in 67! Tied for FINEST graded at either service, this SUPERB GEM 22-D is a gorgeous example and in an awe-inspiring state of preservation.

High end and boldly lustrous, the technical quality and visual allure are both top notch! Sharply struck and vivid with a billowing red brilliance on both sides that amplifies the exceptionally high end surfaces. A strong glass reveals nothing more than the most minute of microflecks and a tiny line or two, none of which are distracting to the eye. The sharply struck devices stand out boldly and the eye appeal is truly spectacular.

The Denver Mint was the only one to strike cents in 1922, and the mintage was somewhat low, just 7,160,000 were produced. This one looks like it just came off the dies.

A dramatically lustrous and ultra well preserved beauty! Considering how reactive both steel and zinc are, it is a marvel that a 1943 Steel cent can survive in such an AMAZING, PRISTINE state of preservation. The satiny smooth surfaces are awash in a blazing, stunning mint luster that booms with a strong brilliance all over. The razor sharp definition on both sides is frosted and stands out boldly from the fields. An early striking, there are a number of die lines and other die flaws that appear on the surfaces. These are mint made and add character to this SUPERB GEM. A fleck or two are noted for accuracy, but they too do not detract from the absolute stunning eye appeal.

PCGS 117, NGC 59, CAC 56. The last three have sold in the \$3,360 to \$3,840. The current published price guides values are \$4,120 in the CAC CPG and the Collectors Universe is \$4,250. THE OGDEN AVENUE LADIES COLLECTION

Legend Rare Coin Auctions is delighted to present The Ogden Avenue Ladies, the current third finest PCGS Registry set and fourth all-time finest Proof Liberty Nickel set. These Ladies are among the highest quality in existence. With 3 of the 31 coins tied for finest graded and two thirds of them CAC approved, the caliber is tough to match let alone exceed. Be prepared for exuberant bidding to the finish as collectors compete to take home one of these exquisite Ladies.

After a tour in Vietnam, the Collector, beginning with a casual assemblage, purchased his first Proof Liberty Nickel. He moved on from collecting shortly after and the coins were stored

away for the next 40 plus years until he dusted off the box and submitted them for certification. As life happened, the Collector was faced with a family health crisis. To distract himself, he turned towards collecting again. That Proof Liberty Nickel was Mrs. Ogden Avenue's favorite coin of the group so the direction was solidified. The timing was right and with a bit of luck and an eye for quality, the set began coming together. A few years and a full recovery later, the decision to release these fine Ladies back into the marketplace was reached. Mr. and Mrs. Collector are eager to pack their bags and work on that dusty bucket list while it is our great pleasure to offer the Ogden Avenue Ladies to you.

This spectacular SUPREB GEM is tied for FINEST KNOWN and is an old friend, having been sold in our December 2016 Regency Auction, where it was described as:

“What a tremendous borderline ULTRA black and white cameo GEM! Borderline Ultra deep mirrors are so fine you can shave using them. They have remarkable clarity, cleanliness, and a nearly blinding reflection. The mirrors appear black (a positive term). Miss Liberty and the details are thickly frosted and iridescent white. Everything is needle sharp in strike too. The eye appeal is jaw dropping!”

PCGS 24, NGC 8, CAC 15. There are seven graded PR67+ CAM and NONE FINER. This coin brought \$4,818 in our sale, and the current PCGS Price Guide value is listed at \$5,250. Worthy of a very strong bid, we think it could set a new record!

Unquestionably, this is one of the FINEST graded for the date. The coin more than deserves its lofty designation.

Nearly ultra deep mirrors explode from all over. The mirrors display the ultimate in clarity and cleanliness. When you twirl the coin, you see that luscious deep mirror “watery” roll. A faint

hint of gold swirls all over. The contrast is stunning. Miss Liberty and the details are pin point sharp in strike and are thickly frosted. The eye appeal is jaw dropping!

PCGS 11, NGC 2, CAC 6. PCGS has graded only 4 coins with NONE finer in Cameo. This was the last example to sell, realizing a record \$15,863 in our October 2019 Regency Event (our estimate was \$8,500-\$9,500) Prior to that, the only other one to sell was back in April 2014. Worthy of a very strong bid; anyone working on the #1 Registry Set should look at this monster SUPERB GEM!

When you want the best, you buy from the best collections. This wonderful GEM came from the Meridian Collection, offered in our Regency Auction 34, lot 128, where it was described as:

“WOW! Anyone who has studied Proof coinage knows that 1895 examples are generally well made in gold and silver; though the nickel was not struck with the same care. Clearly the presently offered coin was! It is of superior quality in every way! Bold mirrors glisten in the light with a strong depth, clarity and vivid reflection that contrasts against the frosty, sharply struck devices, imparting an awe inspiring cameo contrast. A fleck or two attest to the originality and the eye appeal is excellent. RARE any finer.”

PCGS 12, NGC 6, CAC 10. In our September 2019 Regency Auction, this coin brought \$7,931, and more recently an example sold for \$7,200. The current PCGS Price Guide value is listed at \$6,000, which is low considering the last three APRs. Just four 67 CAMs are graded finer, the most recent realizing \$21,150 in our December 2017 Regency Auction. Clearly a stunning coin that we are certain will again bring a very strong bid from the advanced collector. Good luck!

We love this coin! We handled this SUPERB picture of perfection in September 2019 Regency Auction, where it was described as: "ULTRA black and white contrast. The depth of the mirrors is like looking at a midnight, starless sky. Additionally, there is tremendous clarity and cleanliness. The question comes to mind, what does PCGS want in order for a coin to merit a Deep Cameo designation, because this piece is as close as you can get. Eye popping eye appeal is credited not only to the amazing fields but also to the depth and breadth of the mint frost on the devices. If not for a faint hairline on the cheek, which requires powerful magnification to even see, this coin would be a candidate for a PR68 holder."

PCGS 23, NGC 11, CAC 21. There are 12 graded PR67+ CAM and just two finer (thus what we think are inflated Population figures). The Buffalo nickel series is one of the most popularly collected series in U.S. Coins. From 1913 to 1938, this type saw World War I, the Roaring 20s, and the Great Depression, and remained in circulation throughout World War II and beyond. Among the many many dates and mintmarks are many conditionally rare issues, as well as important varieties that are listed in the Guide Book of U.S. Coins (Red Book), and are treated as a regular date in the series. The overdate 1918/7-D is one of those. A single overdated die was prepared and shipped to the Denver mint, and a relatively small number of the 8.3 million nickels produced were of this variety. The discovery of this rare overdate was not made until 1931, by then many were extensively circulated, and thus the issue is rare in all grades, and especially so in near GEM Mint State and finer. With just a handful graded finer, this marvelous example will delight any serious collector.

The first thing that catches your eye is the very pretty iridescent toning that caresses both sides. A radiant, pearly, nickel-silver luster blooms in the light, enlightening the rose and pastel blue tones. Sharply struck up, the overdate is clearly visible to the naked eye. The surfaces are of exceptional quality, and were it not for a single carbon fleck on the Indian's neck, this coin would qualify as a full GEM. While we mention this minor "flaw" it serves as a helpful "pedigree marker" that will forever identify this beautiful coin. A Buffalo nickel to be treasured and appreciated for its stunning overall visual allure, we cannot stress enough its outstanding qualities.

PCGS 24, NGC 13, CAC 4. While PCGS has 3 coins listed on the Population Report in MS64+, only one has ever sold in auction, and it is this one! Its first appearance in June 2011, was without CAC approval and it realized a robust \$161,000. More recently it sold for a "cheap" \$99,000. The current PCGS Price Guide value is listed at \$125,000. Keeping in mind that the last MS65 to sell in auction was in August 2013, where one sold for \$258,000. This marvelous, borderline GEM is worth including in the FINEST of Buffalo nickel collections and will see very strong bidding when it does cross the block. 5C 1921-S PCGS MS65
 What a cool looking Buffalo nickel! When was the last time you saw one with such a dramatic broken die? We cannot recall one. The obverse die was broken when this coin was struck, with a bold die crack across the field to the Indian's nose. The die was also well worn, showing heavy flowing toward the rims. Both sides have a satiny, frosty brilliance that is delicately dusted over by a soft, iridescent gold, blue and rose-peach pastel tone. The eye appeal is really neat and this date is VERY RARE any finer.

PCGS 80, NGC 37. The last several sold in the \$7,800 to \$8,500 range and the current PCGS Price Guide value is listed at \$10,500. With 11 in MS65+ and 10 in MS66 finer, this GEM is a standout and will delight any collector.

5C 1925-D PCGS MS66+ CAC

Legend Rare Coin Auctions is proud to offer the SINGLE FINEST 1925-D nickel graded by PCGS and its quality is all there and then some!

Scarce in all grades thanks to a relatively small mintage of 4,450,000; in GEM grade, the 25-D is the second rarest Denver mint issue of the 1920s, and this coin is truly a spectacular survivor. A rich, satiny mint frost blooms and glows throughout the seductively clean, pristine quality surfaces. A faint trace of pale blue iridescent toning accents the smoothness of the fields and the sharpness of the strike. An amazing SUPERB quality coin that serves as the PCGS CoinFacts plate coin.

PCGS 14, NGC 13, CAC 5. This is the SINGLE MS66+ graded at PCGS and there are ZERO graded finer at that service. Unpriced in the Collectors Universe Price Guide, this GEM could well break the record for the date! It belongs in the FINEST of Buffalo nickel sets and is a world class example!

**LOT 114****5C 1927-D PCGS MS65**

A very difficult date to locate in GEM grade, and this one is generally quite pleasing. This is a brilliantly lustrous example, with a delicate iridescent gold and silvery-rose that glitters in a light. The eye appeal is truly wonderful, we don't know what CAC saw that kept this GEM from stickering.

PCGS 82, NGC 28. The most recent example to sell in auction brought \$2,640 in November 2019 and prior to that, one sold for \$3,600 in August 2019. The current PCGS Price Guide value is listed at \$3,750. While there are 37 graded finer, we suspect there is quite a bit of duplication in the population figures. Any MS66 is a \$20,000+ coin. Bound for a great set.

Wonderful quality and visually impressive in every way, this GEM sits high up on the PCGS Population for the date. This beauty has a wealth of satiny luster that glows brilliantly on both sides. Iridescent, pastel hues, shades of pale blue, rose, peach, and teal. Some minor weakness of strike is seen, typical for the type. Though we see a few light flecks, they have no impact on the outstanding eye appeal.

PCGS 249, NGC 49, CAC 58. There are 39 in 66+ and just 16 finer. The auction records are all over the place for MS66+s with CAC approval. The current PCGS Price Guide value of \$1,600. PCGS 8, NGC 5. The last PCGS-graded example brought \$3,525 in October 2016 and the current PCGS Price Guide value is listed at \$4,000. Just two are finer (both 66+ FS). Bound for a SUPERB set!

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

Beautifully toned surfaces on both sides suggest that this coin sat unmolested for many, many years in an old paper envelope. Amber, gold, violet, with tinges of teal, olive, pink, and dappled original silver surfaces dazzle the eye. The strike is essentially full and the eye appeal is very high end and totally original. Formerly from the #1 ALL TIME SET, with the R.S.D. pedigree, you know that the quality is all there and then some.

PCGS 22, NGC 10, CAC 8. Three examples sold in August 2018, ranging in price from \$1,920 to \$2,310; those were the three most recent MS66s to sell. The PCGS Price Guide value is listed at \$2,300 and the current CAC CPG value is listed at \$2,440. Just eight are graded finer, making this a SUPERB choice for any carefully selected set.

LOT 147**25C 1892 PCGS PR67+****DCAM CAC**

WOW! This coin is super high end. What a stunner!

Exceedingly deep mirrors beam in a way that nearly blinds you from all over. The mirrors exhibit great clarity, depth, and are ultra clean. When you twirl this coin, the mirrors look like a freshly made sheet of ice. The contrast is bold! There is no toning anywhere. Miss Liberty and the details are fully struck and standout with thick frost. The eye appeal is jaw dropping!

PCGS 8, NGC 7, CAC 11 (obvious resubmissions). PCGS has graded only 4 coins in PR67+ DC. This was the last PCGS CAC piece to sell in auction brought \$11,163 in March 2019. The buyer has since made a major upgrade to a PCGS PR68 DC CAC, so this piece is going back into auction.

We just have not been able to get this coin out of our minds. It is that great! Finding any Proof Barber with deep and clear mirrors like this is difficult. This is not a date you see offered at all. Its one heck of a coin!

LOT 148**25C 1896 PCGS PR67+****CAM CAC**

Richly toned with a warm pastel iridescent patina on both sides, the subtleties of the coloration come out as the rich watery reflective mirrors catch the light. The mirrors are generally smooth and free of all but the tiniest hairline or two, without those, this coin would likely be an 8! Thickly frosted devices stand out against the mirrors, especially on the reverse which is like a headlight! Amazing and very highly eye appealing!

Only 762 Proofs were struck. PCGS 17, NGC 22, CAC 11. PCGS has graded four in PR67+ CAM. This coin brought \$6,756 in our June 2019. The current Collectors Universe value is listed at \$6,500. VERY RARE any finer and this coin is marvelous for type or date purposes and we can see it bringing a substantial bid. A world class coin for a world class set!

LOT 149**25C 1907 PCGS PR67**

A lovely GEM Proof Barber quarter. Richly, and originally toned in wonderful mottled golden, olive, amber, and lilac hues that delicately cover vivid, watery reflective fields that are clean and sleek. Housed in an old green tag holder, this coin is as original and eye appealing as can be. We do not know why it did not bean!

Only 575 Proofs were struck. PCGS 10, NGC 15. There are just five coins graded finer. The Population Report has to be wrong: the only non-CAC PCGS graded example to sell in auction since 1999 sold in November 2017 for a ridiculously cheap price! The current Collectors Universe value is listed at \$3,350 and this coin should bring a stronger bid. What a great looking coin for any one looking for a SUPERB GEM that is original.

Now this is a phenomenal quality 1914 Proof quarter!

Shimmering icy mirrors are crystal clear, perfectly clean, and of course have a killer reflection. A moderate mix of pretty and totally original lilac/purple/pale gold/peach/blue/gold colors swirl about the obverse. The reverse is deep lavender (it is nowhere close to dull or drab). Miss Liberty and the details are needle sharp in strike and appear boldly. The eye appeal is excellent! Only 380 were ever minted. The numbers on this SUPER GEM are mind boggling!

PCGS 7, NGC 6, CAC 6. This coin has an amazing auction record of \$18,400 in April 2008 (where Legend was the buyer) which was an ALL TIME HIGH for the date. The last auction record for ANY 1914 PR68 PCGS CAC selling was \$11,163 in October 2012. OMG, that is forever ago! This is a far better date with the lowest mintage.

LOT 151**25C 1916 STANDING LIBERTY. NGC MS62**

FH

FROM THE TOMMY JOHN COLLECTION.

A nearly-Choice Mint State example of this first year of the Standing Liberty series. One of the most beautiful designs of the entire U.S. series, production began in December 1916, and only 52,000 were struck. Hermon MacNeill's standing representation of Liberty holding a shield and olive branch, stepping through what looks like a boat's gangway portrays America stepping out on to the world stage and its readiness in times of war and peace. The devices are sharply impressed from a bold blow from the dies. A soft, satiny glow radiates warmly from below a delicate dusting of the clearest gold tone. A few ancient traces of contact can be detected with a strong glass, which has little impact on the visual allure.

PCGS 24, NGC 33. The most recent NGC-graded MS62 FH sold for \$11,100 in February 2019 and prior to that, they were selling between \$12,000 and \$13,000. The current Collectors Universe value is \$16,000. Good luck, demand far outstrips demand for this classic 20th century rarity.

LOT 152

25C 1918/7-S PCGS MS63

FROM THE TOMMY JOHN COLLECTION.

A lovely, pleasing CHOICE example of this Standing Liberty quarter rarity. Nicely struck up devices stand out against the generally clean surfaces. A dusting of iridescent toning is brought out by the glowing brilliance of the original satin bloom. The head, shield, and eagle's chest feathers do show typical striking weakness, but the eye appeal is very pleasing for a coin of this variety and grade.

One of the popular 20th century rarities the 18/7-S quarter has been actively sought since it was publicly recognized in the late 1930s. By that time, most examples had entered circulation and Mint State coins are quite rare.

PCGS 26, NGC 6. Keep in mind that CAC is very picky with this date, only 1 has ever gotten a sticker! The most recent to sell in auction brought \$21,600 in February 2020, but prior to that, one sold in our January 2019 Regency Auction for \$27,025 and one sold for \$38,400 in August 2018. This coin's last auction appearance was back in 2003! The current Collectors Universe value is listed at \$30,000. Fresh to the market, this KEY, Choice Mint State overdate Standing Liberty quarter is going to see very active bidding.

**LOT 153****25C 1918/7-S PCGS VF25**

FROM THE TOMMY JOHN COLLECTION.

What a great collector grade example of this KEY Standing Liberty quarter overdate. An important coin that is in constant demand from collectors regardless of grade, this totally original VF has a totally original brownish-silver-tan patina on both sides. The wear is problem free and even on both sides, we are not really sure what CAC saw on this one that precluded approval. Regardless of CAC status, it is a great coin for the budget minded specialist.

PCGS 50, NGC 20. The last one brought \$3,120 in March 2019 and we sold a CAC approved example in January 2019 for \$4,700 (we like this one better!). The current PCGS Price Guide value is listed at \$4,500. Our estimate will prove conservative when the hammer falls, you will really like this one!

PCGS# 5726 • ESTIMATE: \$3,000+**LOT 155****25C 1924-S PCGS MS66**

A lovely GEM example, wonderfully preserved quality. Satiny, radiant luster glows throughout the design elements. Generally well struck, there is just some softness on the head and on the shield, but every other detail is nicely impressed. pleasing peripheral toning frames both sides, likely imparted from years of storage in an old album. This coin has a wonderful eye appeal, especially for this date which often comes lacking in that department.

PCGS 41, NGC 22. The last non-CAC example sold in February 2019 for \$4,320, but more recently, CAC coins have sold for \$2,703 to \$3,600. The PCGS Price Guide value is listed at \$4,250. Just a bakers dozen have graded higher, and this one has a great look, which will bring a strong bid.

An Uncirculated example of this semi-KEY date. A full, blooming mint luster is brilliant and satiny across the devices. This date is famous for its weakly struck devices, but this one was pretty well struck (relatively speaking). Even the head shows some definition, and the shield is more than 75% complete. A band of golden iridescent toning forms a halo around both the obverse and reverse. The eye appeal is quite nice, and any collector looking for a Mint State example will delight in this one.

PCGS 1, NGC 7. The last one to sell was back in November 2016, were one brought \$4,230. This coin has been off the market since April 2006, when it sold for \$4,313. The current Collectors Universe value is listed at \$5,250. An important coin that is quite rare any finer.

EX LINK, as noted on the insert.

Rich slate-gold, lilac-dove is accentuated by a bold satin sheen that radiates from smooth surfaces and boldly struck devices on the obverse; the reverse shows some reflective luster with the dappled iridescent color. We note a touch of striking weakness on the eagle's talons and the top part of 50C. Close inspection of the reverse shows a couple of teenie marks none too distracting and magnification is needed to see them. The O-107 is an R-3, and this coin ranks in the middle of the condition census.

PCGS 2, NGC 1. Prior to this one selling in our December 2016 Regency Auction, the most recent III EDGE in PCGS MS63 to sell realized \$15,275 in the 2014 FUN Auction, and is not the presently offered coin. The current Collector's Universe value is listed at \$20,000. The experimental edge devices; III and XXX have always been popular among collectors, each warranting separate listings in the Guide Books. We think this coin should realize a strong price when it sells.

It is a very high end and lustrous example of this variety, just shy of the condition census. Sharply struck devices stand out against the fields that show a hint of flashy PL reflection, especially on the reverse. A few light scattered ticks can be seen with a strong glass, but none are distracting from the superb eye appeal.

LOT 164**50C 1825 PCGS MS66**

Quite possibly this GEM is the FINEST KNOWN O-116, it is indeed finer than any listed in Stephen Herman's Spring 2020 Revision of the AMBPR. The curl on Liberty's forehead extends into the headband and a tiny tine off the left side of the scroll are two of the diagnostics for this Rarity-3 die marriage.

The devices on both obverse and reverse are razor sharp in crispness and definition and stand out against the satiny fields. Richly toned, with blues blending with pewter and gold patina. Even under close inspection with a powerful glass we can only find a single minute line or two. An excellent coin for any wonderful type or date set!

PCGS 8, NGC 7. The most recent example to sell in auction realized \$13,800 in April 2019 and prior to that, these were selling for around \$20,000 which is the current Collectors Universe value. Just two MS66+s have graded for the date finer, neither of which have ever sold in auction. This is a great opportunity to add a wonderful GEM Capped Bust half dollar to your type set! Good luck!

A visually OUTSTANDING GEM 1826 half dollar that ranks in the Condition Census for the O-110 die marriage.

Both sides of this remarkable beauty are framed by peripheral blue, gold, and apricot-rose tone, likely imparted by an ancient coin album where this coin resided for ages. Toning like this is incredibly RARE on GEM grade Bust half dollars. Not only are the surfaces

exceptionally beautifully toned, but they are marvelously preserved. Even using a strong glass, all we can see on this beauty are a couple of very frost breaks on the cheek, but that is it! The reverse, taken on its own should grade MS67, it is essentially FLAWLESS! A glass reveals some mint made die clashes which add to the character and charm to this STUNNING Capped Bust half dollar.

PCGS 40, NGC 49, CAC 13. This coin is worthy of a world class type set. Selling as part of the Horatio Morgan Collection, realizing \$11,400, it was earlier lot 705 in Mid-American's January 1988 auction. This GEM is among the nicest examples of this date we have seen, and its eye appeal makes it ideal for placement in a GEM type set, superb Capped Bust half dollar set, or box of 20 sexy coins. This is a beautiful and totally original CHOICE example! Really high end, we think this coin is even better than the next grade up (no guarantees). Richly toned surfaces have a lovely gold and apple-green patina that is evenly distributed across generally clean surfaces. The devices are very sharply struck up and stand out against the very clean for the assigned grade surfaces. The luster is satiny and glows from below the toning, perhaps a touch subdued. The eye appeal is excellent.

LOT 168**50C 1847/6 PCGS XF45**

The 1847/6 overdate is very rare in all grades, PCGS CoinFacts estimates approximately 125 exist in all grades. Though known to collectors since at least the 1930s, the first recorded auction appearance was in 1952. What makes this overdate difficult is that the placement of the 1847 is not exactly over the 1846 (the light vestiges of the 6 is under the 4).

The presently offered coin has bold luster remaining in the fields on both sides, giving

this coin the look of an even higher grade. A wealth of gold, orange, and rose-tan hues accent both sides giving this coin a great look. Sharply rendered devices show just the slightest touch of friction and some light, scattered ticks in the fields, which have no impact on the eye appeal. We are not sure what CAC saw that would preclude CAC approval.

PCGS 7, NGC 0. There is a record for this coin in October 2011 for \$9,488, more recently selling for \$7,500. Between those, an example sold for \$9,600 in November 2017. The current PCGS value is listed at \$11,500. VERY RARE any finer, PCGS has graded just 8 finer. An AU50 sold for \$11,750 in the 2013 FUN auction. This is a very impressive GEM in every way! A bold, satiny mint luster blooms all over in the fields of this delicately toned beauty. Sharply struck up, this coin has full, crisp definition and they stand out in stark relief against the surrounding fields.

Ranking among the finest graded at PCGS and has a very cool story behind it. Our consignor, who travels extensively overseas for business was traveling through China, and happened upon this coin, raw, in a little coin shop. He purchased it and submitted it to PCGS for grading where it was encapsulated as MS65. How does an 1859-S half in GEM grade end up in the back country of China, you ask? Most of the 20,000 piece mintage of 1859-S dollars were struck for the export trade to China. It is quite possible that this coin was in the pocket of some merchant who went overseas at the time and it was saved by the family who received it in commercial channels there. That it survived in such a pristine state in China makes this a real treasure for the advanced Seated half dollar collector.

PCGS 5, NGC 3, CAC 2. The other CAC approved MS65 was an NGC-graded coin that sold for \$14,950 back in 2008. The current Collectors Universe value is listed at \$9,000 and PCGS has graded just three coins finer, which includes the PCGS MS66 CAC that we sold in October 2015 for \$19,975, and the finest being the Eliasberg MS68. Ex Sounder.

Vivacious, satiny luster blooms and glows with a glimmering sheen. The surfaces are quite clean and pleasing, and if the strike were a little fuller we have no doubt this fully CHOICE example could have graded higher. The eye appeal is nice and fresh!

PCGS 288, NGC 225, CAC 33. The last PCGS/CAC example that sold in auction brought \$2,160 in March 2019 and prior to that, these were bringing between \$2,400 and \$4,000 routinely. The current Collectors Universe value is listed at \$2,750 and the CAC CPG value is listed at \$3,120. Very rare any finer, this coin will see very strong bidding from the collector when it crosses the block. Bound for a really nice collection of Walkers.

This totally original GEM is Premium Quality defined! Satiny mint frost has a wonderful sheen throughout the silky smooth surfaces. The strike is quite sharp, every detail is crisp and fully defined. A pearly-silver and soft radiant gold is dusted throughout the surfaces. Were it not for some very tiny contact marks, this GEM would be an even higher grade and would be tied for FINEST.

PCGS 125, NGC 114, CAC 37. There are 11 in MS65+ with just 11 graded finer, all MS66. This coin sold back in the 2018 FUN auction for \$6,000 and since then, we sold one in our Regency Auction XXV for \$8,519. The current Collectors Universe value is listed at \$6,500 and keep in mind the last PCGS MS66 CAC sold for nearly \$22,000 in our January 2019 Regency Auction. This impressive, original coin will bring a very strong price. Good luck.

Truly a marvelous GEM example of this MAJOR condition RARITY! Despite a generous mintage struck during the war time boom, these are apt to be heavily circulated, as a major recession came at the close of war, and mintages dropped, especially in the early 20s.. GEM Mint State pieces are quite rare, and this one ranks among the highest graded with CAC-approval.

A frosty, satin mint luster has a glorious pearly sheen. The strike is impeccable, with essentially fully defined devices. The surfaces are the epitome of PQ Gem quality with no breaks in the frost, and there are no serious marks of any kind. The eye appeal is excellent.

PCGS 30, NGC 37, CAC 5. The last example to sell in auction brought \$38,400 in the 2018 ANA auction, and prior to that, one sold for \$24,000 in the 2018 FUN auction. The current CAC CPG value is listed at \$20,000. There are fewer than 10 graded higher, none of which appear to be CAC approved. This GEM will inspire a very spirited round of fierce bidding when it crosses the block.

This is a totally original GEM example of this major condition rarity. Its looks are wonderfully preserved with a strong, pearly, satiny luster that radiates vividly on both sides. Delicate toning in shades of pale gold, soft blue, and pastel rose hues. This coin has a crisp strike, even the thumb is nicely outlined and most of the lines in the flag are crisply defined. The surfaces are very nicely preserved, with no serious marks or lines to be found anywhere. The eye appeal is a real standout.

PCGS 58, NGC 33, CAC 8. There are two in MS65+ and fewer than 30 are graded higher at PCGS. This coin sold in July 2017 for \$10,575 and the current PCGS Price Guide value is listed at \$10,500. 50C 1919-D PCCS MS64 CAC

The 1919-D half dollar is one of the major condition rarities of the series, ANY Mint State coin is VERY RARE, and anything finer than the currently offered MS64 is extremely so!

Incredibly lustrous surfaces are devoid of all but the most minute ticks and contact, but they do not detract from the exceptional eye appeal. Nicely struck for the issue, this coin has a touch of toning attesting to the originality. Housed in an older blue tag holder.

PCGS 80, NGC 76, CAC 14. The last one we sold brought \$25,850 in our September 2018 Regency Auction. This coin is ex. Eric Lane Collection, where it sold for \$30,550 in August 2015. The current Collectors Universe value is listed at \$26,500. EXTREMELY RARE any finer, PCGS has graded 21 higher than the currently offered piece. This beauty will bring a very strong price. Good luck!

A soft, satin textured luster and a strong strike define this near-GEM. Though the grade is limited to the 64 level by a few minor marks, this is a truly lovely example for the grade.

PCGS 418, NGC 260, CAC 46. While the Collectors Universe value is listed at \$1,100 and the CAC CPG value is \$1,150, the last NGC/CAC coin sold in the 2020 FUN auction for \$1,320. VERY SCARCE any finer, this is a great coin for any lovely set of early Walkers. Good luck.

**LOT 182****50C 1921-D PCGS MS64****CAC**

With a small mintage of 208,000, the 21-D is famous for having the lowest mintage of the entire series. Not only is this date coveted by collectors of modest means in low grade, Choice and finer examples are trophies for the Set Registry crowd.

Radiant luster blooms boldly on both sides. The devices show impressive details from an exacting blow from the dies. Imbued with a slight golden-pearly hue, this near-GEM has a great look that is unencumbered by anything more than an extraneous mark or two, which account for the assigned grade.

PCGS 97, NGC 85, CAC 22. The two most recent examples sold for \$12,600 and \$13,800 (2020 FUN and October 2019 respectively); this coin brought \$16,450 in the 2016 FUN auction. The current Collectors Universe value is listed at \$18,500 and the CAC CPG value is \$16,900. A prime rarity any finer, this is the highest obtainable grade for most collectors and as such, we know bidding will be intense for it. Good luck!

After a major recession that hit the economy after World War I and the Spanish Flu pandemic of 1919, the need for coins dropped drastically. After falling to a series low mintage in 1921, nothing other than cents, silver dollars, and double eagles were struck in 1922. Coinage of half dollars resumed in 1923, with only the San Francisco mint issuing coins, with a mintage of 2,178,000. Like most of the other early dates, the 23-S is a major condition rarity. Ranking among the top dozen and a half examples graded at PCGS, this is a very impressive GEM!

A strong, radiant luster beams all over on both sides. Clearly an early state of the dies, with the reverse showing die polish lines in the fields that had not worn off, the strike is generally bold, showing only light weakness at the extreme central portions of the design. Impeccable preservation, this beauty shows only the most tiny ticks under the aid of a strong glass. A splash of gold in the right obverse field is subtle, but adds dimension to the impressive eye appeal and originality.

PCGS 54, NGC 24, CAC 9. There are eight examples graded MS65+ and just 10 are graded higher. This one brought \$19,975 in the 2017 FUN auction and the most recent one brought \$20,400 in the 2019 FUN auction. The current PCGS Price Guide value is listed at \$20,000; in MS66 the Price Guide value jumps to \$35,000. Worthy of a strong bid and placement in a world class GEM set of Walkers.

This is a STUNNING, SUPERB GEM 1929-D half dollar! Needless to say, this coin ranks among the top five examples graded by both PCGS and NGC COMBINED! It is totally original and the definition of LEGEND QUALITY!

A thick, satiny mint luster radiates beautifully throughout the exceptionally smooth, high end surfaces. The fields and devices are essentially perfect with just a few microscopic ticks noted with a strong glass, mentioned only for the sake of full disclosure. The lightest touch of peripheral color is also seen, but this coin would be at home in any set, including those that are exclusively untoned. The devices are razor sharp, even Liberty's hand is fully outlined and delineated. The eye appeal is off the charts; stone bold and stunning!

To think that any coinage struck the year the stock market crashed, precipitating the Great Depression could have been saved is a marvel! Back when half dollars were regularly used in commerce and had some real spending power, any Mint State survivor is a prize for the collector, particularly in such a stunning, high grade.

**LOT 208****50C 1952-S PCGS MS66 FBL CAC**

A lovely, original GEM, offering PQ surfaces for the grade. Shimmering satin like frost brings life to the apricot, peach, and golden accents. Well struck, eye appealing and displaying only the slightest little ticks here and there, which are taken into account with the assigned grade.

PCGS 56, NGC 4, CAC 10. EXCEPTIONALLY RARE any finer. PCGS has only graded a dozen finer. The current PCGS Price Guide value is listed at \$1,750 and the CAC CPG value is \$2,120. Only three have ever sold in auction, averaging \$2,021. Bound for a great set, we anticipate strong bidding for this GEM.

**LOT 210****50C 1957-D PCGS MS67 FBL**

Tied for FINEST GRADED at PCGS, this beautifully toned SUPERB GEM is in a class all its own! Any 1857-D half dollar is a rarity with gorgeous color, especially when the toning graces both sides. This remarkable coin offers both a very high grade and stunning toning that it will appeal both to those building toned Franklin half dollar sets, and those who demand the FINEST grades!

The toning on the obverse is amazing, autumnal and sunset oranges, reds, and golds blend with accents of pale green that really accents the original silver surfaces. Every detail is razor sharp and the surfaces show just a few minor contact marks.

PCGS 30, NGC 10. While the current Collectors Universe value is listed at \$3,000 this remarkable coin realized a strong \$4,560 in October 2019. With none finer, this 57-D belongs in a very high ranking Registry Set and will see spirited bidding.

LOT 209**50C 1957 PCGS MS67 FBL CAC**

Among the FINEST graded examples at PCGS, there is just a single MS67+ FBL finer. The present SUPERB GEM is exquisitely preserved, likely from an original mint set. Smooth, lustrous surfaces bring out the delicate, mottled color. Shades of copper-red, gold, and lilac-silver rainbow on both sides. Sharply struck and beautiful, this unmarred, PQ survivor belongs in a great Registry Set.

PCGS 34, NGC 9, CAC 18. We sold the last two that sold in auction, the most recent sold for \$1,234 in September 2019. The current PCGS Price Guide value is listed at \$1,450 and the CAC CPG value is listed at \$2,060. Keep in mind that the only 67+ FBL sold in auction over 5 years ago, and would likely bring around \$7,000 if it came up in auction today.

**LOT 211****50C 1962-D PCGS MS66 FBL**

A high grade survivor of this conditionally rare late date Franklin. Usually weakly struck and/or hacked up, this date is VERY RARE in such a high grade. Distinct reflective accents in the lustrous obverse fields flash boldly while the reverse is satiny. A blush of peripheral toning frames the sharply struck devices and generally high quality surfaces.

PCGS 49, NGC 5. The current PCGS Price Guide is \$2,050 and the average of the last 10 non-CAC PCGS APRs is \$1,560. With just three graded MS66+ FBL finer, (none have ever sold in auction), this coin will see strong bidding.

Ex Young-Dakota.

Last offered as lot 131 of our special October 2019 Regency Event: Exclusively Legend, where it was part of the Young-Dakota Collection and described as:

"This is one of the FINEST 1950 Proof Franklin half dollars that exists! At the time the collector added this marvelous coin to his collection it ranked as the sole PR67+ at PCGS. The mirrors are deep, clear, and clean with a strong reflectivity. The surfaces show off a wonderful mix of iridescent gold, baby blue, and lilac toning that swirls all over both sides, enhanced by the underlying mirrors.

PCGS 208, NGC 345, CAC 85. There are 21 in PR66+ and just a single PR68 finer. The current PCGS Price Guide value is listed at \$8,000 and there is a wide range of APRs, averaging to \$6,048. With the PR68 selling for over \$22,000 three years ago, this is one of the FINEST obtainable!

PCGS 806, NGC 882, CAC 113. There are 34 in 66+ at PCGS. The most recent example brought \$1,323 in July 2019 and the current PCGS value is listed at \$1,200. Very scarce any finer, and this one is very nice for the grade.

PCGS# 6691 • ESTIMATE: \$1,000+**LOT 214****50C 1950 NGC PR67+ CAM**

A truly SUPERB example of this first year of the Proof Franklin half dollars. Extremely RARE in this lofty state of preservation with the CAMEO designation, this blazingly reflective beauty has a bold contrast on both sides. Tied for second highest graded at NGC with just three finer, this coin is a real trophy for anyone looking for the best of the best. Deeply reflective, glassy mirrors beam with a strong clarity and flash. The devices are sharply struck with a creamy white, frosty texture that is contrasted wonderfully by the surrounding

mirrored fields. The surfaces are, as a matter of course for the lofty certified grade, free and clear of any distracting lines, toning, or haze that would detract from the outstanding eye appeal.

PCGS 3, NGC 2. The most recent example sold in October 2019 for \$12,600. The Collectors Universe value is listed at \$29,500. There are two NGC PR68 CAMs graded, but they have never sold in auction, making this about as fine a coin as you can ever hope to own.

50C 1956 TYPE 1. NGC PR69 CAM

Flawless! Ultra deep mirrors shine and reflect the light with incredible clarity. The fields are smooth and free of any flaws and the reliefs are clean and nicely frosted.

Two reverse die types were used in 1956 to produce proofs, and the Type 1 is the scarcer of the two types, with PCGS CoinFacts stating as of February 2012 about 10x as scarce, which is not too far from Walter Breen's estimate of 5% being Type 1. In NGC PR69 CAMEO, there are 15 graded for Type 1, and 308 for Type 2. Ron Guth added that CAMEOS "are about five times as rare as the non-Cameos. Deep Cameo Proofs are exceedingly rare."

PCGS 1, NGC 21. Unpriced by Collectors Universe, the most recent relevant APR is a PCGS PR68+CAM CAC that sold for \$6,463 in our May 2019 Regency Auction.

LOT 224

50C 1964 NGC MS68

This is the SINGLE FINEST regular business strike 1964 Kennedy half dollar graded by either PCGS or NGC! WOW!

While well over a quarter billion were struck, and many hoarded at the time of issue in honor of the slain president, very few survive in SUPERB grade. Indeed, it is quite RARE in MS67 relative to the number struck. This miracle of survival has a stunning array of color on both obverse and reverse. Each violet, orange, gold, and rose hue is enlivened by the brilliant mint luster that blooms all over with a strong vivacity. The design elements are sharply struck as usually seen and the eye appeal is off the hook! WOW!

PCGS 0, NGC 1. This coin has clearly never sold in auction. Don't even bother looking at comps, you will not find a similar looking coin! Indeed the eye appeal is similar to the 64-D in PCGS MS68 that we sold for a world record \$22,325 in February 2016. An exceptional SUPERB GEM for any FINEST JFK set!

**OUR ESTIMATES**

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

LOT 226

\$1 1871 PCGS MS65

Legend Rare Coin Auctions is honored to be able to offer this GEM 1871 dollar, one of the FINEST KNOWN examples of this conditionally challenging date. While 1,074,760 were struck, many were exported overseas, and though common in circulated grades, in Mint State this date is very scarce and is EXTREMELY RARE in GEM with PCGS CoinFacts estimating 7 survivors in MS65 or finer. Indeed including duplication in submissions, PCGS and NGC combined have graded 15 examples total. With no NGC coin sold in auction since 2005, perhaps most of those have been crossed over to PCGS but never taken off the Census.

The present GEM has a warm, pearly, satin luster that glows vividly in the fields and the recesses of the design types. Well struck devices stand against the smooth, pleasing fields, which have a nice reflectivity on the reverse. Gold, apricot, rose, slate-blue, and pearly silver blend wonderfully on both sides. This coin has a great visual allure and is the epitome of GEM quality.

PCGS 7, NGC 5. The most recent example realized \$47,000 in the 2017 ANA auction, and before that, all PCGS coins to sell were CAC approved, bringing \$48,175 and \$49,250 back in 2015. The current PCGS Price Guide value in MS65 is \$55,000. Just two coins are graded finer, a 65+ that sold for \$60,000 in March 2019 and the MS66 that was part of the Legend Collection, has not sold in auction since 2005. This is a great coin that belongs in a great Seated Dollar collection. Bid accordingly!

PCGS# 6966 • ESTIMATE: \$35,000+

LOT 227**\$1 1871-CC PCGS XF45**

The second RAREST CC mint Seated Liberty dollar and this one is a really nice XF45; a great collector grade coin! Dove, slate, and russet-olive-tan patina grace the obverse and reverse, though overall the surfaces are deeper toned on the obverse. The design elements show just a touch of rub on the highest points, and a strong glass will reveal some minor contact and a minor scratch or two, obtained during time in wild west commerce, none

of which have a impact on the visual allure. Only a single set of dies was used to strike the 1,376 silver dollars in Carson City mint in 1871, which was the lowest dollar mintage from this mint. Most of the estimated 150 survivors are in circulated grades, many of which are impaired in some way--even examples that have received numeric grades from PCGS or NGC.

PCGS 15, NGC 7. There has not been a PCGS XF45 sold in over two years, selling for \$11,400 in the 2018 FUN auction and that coin did not have the strong visual allure of this CHOICE example. Prior to that, one sold in the 2014 ANA Auction for \$15,428. The current PCGS Price Guide value is listed at \$16,000. Keep in mind no AU50 has sold in auction since we sold one in our June 2015 Regency Auction for \$17,038. Clearly this is a tough date that is hard for collectors to find in any grade, and in AU and Mint State grades they are prohibitive for most numismatists, putting strong demand on very pleasing XFs as here.

LOT 228**\$1 1858 PCGS PR64**

While the mint had been producing Proof singles and sets for years for VIP clients and dignitaries, in 1858, they began producing them for the public. Only 300 Proofs were struck, and this one ranks among the prettiest we have seen.

Extremely reflective mirrored fields beam all over with a vivid glassiness and flash. Sharply struck up, the devices are struck with pin-point precision. A melange of deeper blue and apricot-gold mingles with teal and rose accents. The surfaces are clean and smooth and it takes a very strong glass to find any lines in the reverse fields. These are perfectly appropriate for the assigned grade and do not impact the stunning eye appeal of this VERY CHOICE example.

Only 300 Proofs were struck. PCGS 8, NGC 12. The most recent to sell realized \$15,863 in the March 2017 sale of the Blue Moon Collection. This coin has a lot more flash, color, and pizzazz! The current PCGS Price Guide value is listed at \$22,000. There are eight coins graded finer, the most recent of which sold in the 2020 FUN Auction for \$44,400 (that was the first time since 2005 that a PCGS PR65 had sold before). Worthy of a great set of Seated Liberty dollars.

What a STUNNING black and white Ultra Cameo contrasted GEM Proof Seated dollar! This coin has incredible mirrors and the devices stand out in stark, dramatic fashion against the mirrored back drop of the fields. Blazing, deep beaming mirrors offer the utmost reflection in the fields. A strong glass reveals a few minor lines, but nothing singularly distracting. The well defined devices have a thick, frosty white finish that provides an exceptional contrast.

Only 800 Proofs were struck. PCGS 0, NGC 1. Off the market for nine years, this coin last sold for \$16,100 in the 2011 Central States auction. Unpriced in Collectors Universe (and other price guides), in CAMEO, this coin has a Collectors Universe value of \$24,000. At the end of the day, our estimate will likely prove conservative. Good luck.

The 78-S is a common date in MS66 and is rare in MS66 PL, it is excessively so in MS66 DMPL. The present coin is tied for FINEST NGC-graded example in the DPL category, this coin is housed in a slightly older generation NGC holder.

Thickly frosted devices stand out boldly against the watery reflective fields. Both sides possess a vivid mint brilliance that comes to life in the light. The crispness of the striking details and bold contrast gives this coin, at first glance, the appearance of a Proof. The peripheries are framed by a narrow band of deep gold and light blue which gives the shimmering silver brilliance of the surfaces an even bolder visual impact.

PCGS 3, NGC 2. NO MS66 DMPL graded by either service has ever sold in auction! Let that fact sink in; in 33 years of 3rd party coin grading, no example MS66 DMPL 1878-S has EVER sold in auction. That is EXCESSIVELY RARE. The current Collectors Universe value is listed at \$22,500 and only time will tell if that is low or high. OF 1878. PCGS MS64+

DMPL

One of the FINEST DMPLs graded of this 1880/79-CC varieties. Exceptionally deep, flashy mirrors beam from all over, contrasting nicely against the thickly frosted devices.

As would be expected for an early die state, this coin has a number mint made die polish lines that appear in the fields. Were it not for a thin line on the cheek, we think this coin might have had a chance at CAC.

The 1880/79-CC is noteworthy because the under digits 79 are clear below the 80. Furthermore, this die was paired with a leftover reverse die from 1878 where the arrows are bent, basically the top two arrows are parallel but the bottom arrowhead is clearly placed at a downward angle, which implies the entire shaft and tail feathers should be at a similar angle, but they are not. This minor design error was corrected early in 1879 but a leftover 1878 die was pressed into service to create this variety.

PCGS 3, NGC 0. NONE have sold in auction. There are just three in MS65 DMPL graded finer. The current PCGS Price Guide value is \$7,500 and the most recent PCGS MS64 (no + DMPL) sold for \$6,463 three years ago! WOW! This is one heck of a SUPERB GEM, tied for second highest graded by PCGS, and is as high a grade as any collector can reasonably expect to be able to add to their set. While a lower mintage date, with just 296,000 struck, many survive in Mint State, up to MS66 level, thanks to the GSA release of government stored bags in the early 1970s.

This is a blast white, exceptionally frosty, high end and LUSTROUS beauty. This stunning quality coin looks as fresh today as it did when it came off the dies. Clearly this SUPERB GEM did not see the inside of a mint bag or treasury vault, and survives with essentially flawless surfaces in a stunning state of preservation.

PCGS 297, NGC 152, CAC 61. There are 23 in MS67+ at PCGS. A frosty, beautifully lustrous GEM Carson City dollar that has a lovely arch of rainbow color along the top of the obverse. Clearly bag stored, another dollar sat over 75% of the obverse between the canvas and the coin's surface, leaving that portion stark white silver. The eye appeal is exceptional in every way. A lower mintage date, only 296,000 were struck, but thanks to the many thousands that came out of the GSA hoard in the 1970s, this date is readily available in Mint State grades, but with this kind of look, it is quite scarce indeed!

PCGS 5053, NGC 2138, CAC 420. A GEM like this is worth more than the \$750 listed in the current PCGS Price Guide, and its freshness and quality are truly special. Good luck.

**LOT 240****\$1 1881-S PCGS MS65 CAC**

Christmas came early this year with this red and green toned GEM! Beautiful cranberry-red and emerald-green tone dominates, with creamy peach-gold and violet hues intermingled. The entire obverse is awash in these delectable colors which we rate a 9 on our 10-point scale. The luster is bold and brilliant, which brings out the varied shades and enlivens the surfaces. There is just some minor chatter that can be seen with a glass, which attests to the assigned grade, but does not detract from the outstanding SUPERB eye appeal.

This coin is worthy of a great toned Morgan dollar set and will bring a very strong bid when the hammer falls. We can see this coin bringing Northern Lights type of bidding.

LOT 239**\$1 1881-S PCGS MS67+ CAC**

Classic old time album toning frames both sides of this well struck and lustrous SUPERB GEM. The lower obverse offers a dappled rainbow patination with varied blues, greens, golds, pinks, and reds. The cheek is generally clean and the surfaces all over are a delight to behold with a bold cartwheel luster.

PCGS 2933, NGC 4426, CAC 926. There are 330 in MS67+ at PCGS and the most recent 10 examples have sold in the \$775 to \$2,640 range, with an average of \$1,214. Worthy of a strong bid for its unique look.

LOT 241**\$1 1881-S NGC MS67 PL**

Flashy and brilliant, this lustrous SUPERB GEM is a stand out. Beaming, reflective fields contrast wonderfully against the frostiness of the sharply struck devices. A few scattered ticks are seen, which are very minor. The eye appeal of this blast white and brilliant 81-S is exceptional.

PCGS 85, NGC 117. VERY RARE any finer in the PL designation, PCGS and NGC have each graded ten coins finer. The last NGC-graded piece sold for \$1,080 in the 2019 FUN auction. The current Collectors Universe value is \$1,800. We like the look of this coin and you will too. Good luck.

**LOT 242****\$1 1881-S PCGS MS66 DMPL**

Bright white and super flashy, this GEM DMPL 81-S has a beaming reflection. The devices are thickly frosted and contrast boldly against the glittering depth of the surrounding fields. Some very minor contact is noted with a glass, its impact on the eye appeal being quite minimal.

PCGS 87, NGC 91. The current PCGS Price Guide value is \$2,150. Non CAC-PCGS graded coins have brought between \$1,870 and \$2,090 in our auctions, none since 2018. A good looking GEM, this coin will fit nicely in your set.

PCGS# 97131 • ESTIMATE: \$1,500+

**LOT 243****\$1 1882-S NGC MS68* CAC**

A blazing fireball of vivid mint brilliance on both sides of this EXCEPTIONAL QUALITY jewel. The surfaces are pristine with zero imperfections anywhere. Lovely toning graces both sides, the obverse is awash in pale blue, light violet-purple, and honey-tangerine hues and the reverse has a ring of blue and orange tone framing that side. The color rates an 8 on our 10-point scale for color, and the eye appeal is certainly worthy of NGC's coveted "Star" designation.

PCGS 75, NGC 130, CAC 53. This was the most recent NGC/CAC example to sell in auction, realizing \$4,348 in our May 2019 Regency Auction. The current CAC CPG value is listed at \$5,000 and the Collectors Universe value is \$6,000. There are seven in MS68+ graded finer at NGC, only one of which has ever sold, realizing \$15,600 in the 2018 ANA auction.

**LOT 244****\$1 1883 PCGS MS65 DMPL**

Flashy deeply reflective mirrored fields have a bold luster that contrasts against the well struck devices that have a thick, white frost, creating a nice cameo-like contrast. Despite a mintage well over 12 million, DMPLS make up a very tiny proportion of survivors, and GEMS are especially difficult to find.

PCGS 100, NGC 35. The current PCGS Price Guide value is listed at \$1,250 and the two most recent APRs are in excess of that amount: \$1,440 in the 2020 FUN auction and \$2,040 in April 2019. Keep in mind that there are just 41 graded finer at PCGS and are VERY difficult to find.

**LOT 245****\$1 1883-S PCGS MS64 CAC**

This is quite the high end MS64 83-S! Brilliant and billowing cartwheel luster rolls across both sides of this impressive near-GEM. Flashy, somewhat reflective mint bloom glows throughout the untoned and brilliant silver surfaces, which are devoid of any singularly distracting marks or scuffs. Overshadowed by the 84-S, the 83-S is also an important condition rarity in the Morgan Dollar series, rarely found finer than the present MS64 grade, making this a great coin for collectors to add to their sets.

PCGS 465, NGC 239, CAC 79. The most recent example sold for \$7,200 in February 2020 and even an NGC-CAC sold for \$6,000 in the 2020 FUN auction. The current CAC CPG value is listed at \$5,000 and the Collectors Universe value is listed at \$4,850. Keep in mind that the Price Guide value jumps to \$12,000 in MS64+ and \$35,000 in 65.

LOT 246**\$1 1884 PCGS MS65+ DMPL****CAC**

Among the top dozen graded in DMPL between PCGS and NGC, this exceptional GEM has all the bells and whistles that even the pickiest of Morgan dollar collectors will delight in it!

Bold, radiating luster flashes across both sides, accenting the deeply mirrored fields. Sharply struck up devices have a thick frosted texture that stands out boldly in near cameo-like contrast with the surrounding mirrored fields. There are a few minor, very widely scattered ticks and a white-iridescent hue seen on both sides. The eye appeal is really very nice.

PCGS 39, NGC 14, CAC 3. There are 2 in 65+ DMPL and just 9 finer. Neither 65+ DMPL has ever sold in auction the last regular (not "+") PCGS MS65 DMPL CAC brought \$7,050 in our September 2019 Regency Auction. There has not been a 66 DMPL sold in auction in 15 years! Clearly this coin will see very active bidding Good luck, this coin may be the FINEST you will find for your collection!

A GEM, DMPL, CC Morgan dollar: what a great combination! Bold, brilliant Prooflike luster beams with a full 8" depth in the fields. Well struck, the devices have a nice contrast. A few scattered ticks are noted, the worst of which is a single tiny scuff by Liberty's eye. Regardless, the eye appeal is very high end and bold.

PCGS 722, NGC 196. The most recent three examples sold between \$1,020 and \$1,140 between May 2019 and January 2020. The current PCGS Price Guide value is listed at \$1,350. Scarce finer, this coin is very pleasing and is great for any GEM Morgan dollar set.

**LOT 249****\$1 1885-O PCGS MS66 DMPL**

A high end looking GEM DMPL 85-O dollar. The deeply mirrored fields show some light silver white toning. The sharply struck devices are bright and frosty and contrast against the watery mirrors that surround them. Aside from a tiny mark, the cheek is very clean and will please any old timer. The reverse reveals a tiny planchet flake under close magnification, which is mint made. The eye appeal is very alluring overall and will delight the collector.

PCGS 52, NGC 20. The current PCGS Price Guide value is listed at \$2,400 and the average APR for a non-CAC 85-O in 66 DMPL is \$2,799. None have sold in nearly two years. Extremely RARE any finer, only seven have graded higher in the DMPL category.

A blazingly lustrous, deeply reflective GEM DMPL dollar. Blast white, silver surfaces have a mirrored brilliance that is blinding in a light, contrasting against the thickly frosted devices, imparting a cameo-like contrast. The light marks that keep this coin at the 65+ grade do not detract from the outstanding visual allure.

PCGS 156, NGC 56, CAC 14. There are 7 graded MS65+ DMPL and just 38 graded finer. No CAC MS65+ DMPL has ever sold in auction; the current PCGS Price Guide value is \$1,700 and keep in mind that we sold a PCGS 66 DMPL CAC for \$2,820 in July 2018. A great coin for any GEM DMPL collection.

**LOT 251****\$1 1887 PCGS MS65 DMPL CAC**

What a great looking DMPL Morgan! Boldly lustrous and reflective fields radiate with deep beaming mirrors. Distinct, sharp, and frosty devices create a wonderful contrast. While the mintage was high, with over 20 million struck, relatively few were struck from the early, polished state of the dies with this level of contrast and depth to the mirrors. There are some tiny traces of contact, nothing that affects the stunning visual allure!

PCGS 183, NGC 115, CAC 13. The last one to sell was toned and sold in our January 2018 Premier Session for \$1,980 and the one before that brought \$1,410 back in October 2012. Clearly CAC is tough on these AND those special GEMs that have CAC approval almost never come up for sale! Good luck!

This coin really has life and is VERY HIGH END!

Semi-prooflike mirrors are sleek and look clean. Only when using a strong glass can you find a few ticks and lines. Nothing stands out or is serious. A full booming cartwheel luster really makes this coin glow from feet away. The contrast is strong. Miss Liberty and the details are thickly frosted and are fully struck. The eye appeal is fabulous!

PCGS 419, NGC 168, CAC 56. PCGS has graded 56 in MS65+. We'd challenge this coin VS any other MS65+ as it IS that nice! The current Collectors Universe Value is \$8,000. We can see this coin exceeding that because of its superior eye appeal and quality!

LOT 255**\$1 1892-S PCGS AU58 CAC**

The 1892-S is a classic condition rarity in the Morgan dollar series, and is a KEY date in CHOICE AU and higher grades. The present coin is very pleasing, with just a trace of friction on both sides, both on the devices and in the fields. Retaining most of its original silver luster. The eye appeal is exceptional for the grade, and this is a very pleasing coin that is destined for a wonderful Morgan dollar collection. Mint State survivors are ULTRA RARE.

PCGS 139, NGC 147, CAC 11. The most recent PCGS/CAC example sold in April 2019 for \$19,800, well above the CAC CPG and Collectors Universe values. Just to show that wasn't an outlier, we sold one in January 2019 for \$18,800. Keep in mind any Mint State coin will begin at \$40,000+, if you can find one! Good luck!

LOT 256**\$1 1893 PCGS MS65**

This is a frosty, brilliant GEM example of this low mintage key date Morgan dollar. Struck during the economic downturn known as the Panic of 1893, the economy faced the worst recession it had seen, only to be eclipsed by the Great Depression a few decades later. Only 389,000 silver dollars were struck, most of which disappeared into circulation, where they were to remain. Most survivors are moderately to heavily circulated. The GEM here is bold, lustrous, and well struck, with nicely frosted devices and generally clean, smooth surfaces.

PCGS 255, NGC 81. Prices are all over the place for MS65 examples, but the last 10 PCGS non-CAC examples have sold for an average of \$4,550 with the most recent bringing \$5,520. The current PCGS Price Guide value is listed at \$5,500 and with just 38 graded higher at PCGS, these become quite expensive any finer. Good luck.

PCGS# 7220 • ESTIMATE: \$3,500+**LOT 257****\$1 1893-CC PCGS MS63+****CAC**

A CHOICE example of the final year of coinage operations at this wild west mint. Adding to the historical and numismatic appeal of this date is the Panic of 1893, one of the worst financial recessions in the history of the United States, which caused a drop in mintage of silver dollars at all mints.

Boasts a satiny mint frost that graces both sides of this eye appealing 63+. Generally well struck with only a little striking weakness on the highest central portions of the design such as the hair curls above Liberty's ear. There are minimal marks that really just blend to the surfaces and are appropriate for the assigned grade. The eye appeal is above average for the grade.

PCGS 1176, NGC 554, CAC 78. There are only 39 in MS63+, and this date becomes very scarce and expensive any finer. The last PCGS MS63+ CAC to sell in auction brought \$8,519 in our December 2017 Regency Auction. The current PCGS Price Guide value is listed at \$10,000. This is a great looking CHOICE example that will delight any picky collector.

PCGS# 7222 • ESTIMATE: \$8,000+**LOT 258****\$1 1893-CC PCGS MS62**

Struck in the last year of the Carson City mint, only 677,000 came off the presses. Most of these went into circulation or were melted in 1918. Scarce in Mint State, especially so in MS64 or finer, which puts pressure on attractive MS62s and MS63s. This original coin has some slight scuffs and ticks on both sides, perhaps accented by the bold, semi-Prooflike reflective luster. Offering the typical bluntness of strike, this lovely coin has a touch of golden toning at the rims, giving the coin some extra depth of character.

PCGS 1191, NGC 544. The 10 most recent PCGS examples without CAC approval sold between \$4,080 and \$4,800 with the average being \$4,549. The current Collectors Universe value is listed at \$5,250 and as a coin that serves as the capstone to the ever popular Carson City short set.

PCGS# 7222 • ESTIMATE: \$3,800+

LOT 259**\$1 1893-O NGC MS64+ CAC**

What an exceptional, borderline GEM example of this important KEY Morgan dollar rarity! The mintage of 300,000 is tiny in the context of Morgan dollars, one of the lowest in the long and popular series, and as the financial Panic of 1893 worsened, few examples were saved for posterity, and any that might have been held in treasury vaults were melted en masse in 1918 under the auspices of the Pittman Act. While available in lower grades, it is RARE in Mint State, especially so in MS64+ and finer.

A truly marvelous example of the date, with a full, vibrant pearly-silver mint brilliance. Generally well struck with frosty texture on the devices. We note a touch of the typical weakness on the highest points of hair curls above Liberty's ear. Silken smooth surfaces are free of any contact of any kind that distracts the eye. Wonderfully preserved, this coin is about as close to GEM quality as you will get without spending six figures!

PCGS 102, NGC 39, CAC 15. There are three MS64+ graded at NGC, none have ever sold in auction. While no NGC examples have sold in auction, PCGS/CAC examples have sold for a wide range of prices from \$23,400 to \$42,300. The current Collectors Universe value is listed at \$32,500 and keep in mind that two years ago, an NGC MS65 sold for \$132,000! What a great coin for any high end Morgan dollar collection. Good luck, bidding will be intense!

**LOT 260****\$1 1893-O PCGS MS62+ CAC**

A visually impressive coin for the assigned grade, essentially a FULL CHOICE example of this low mintage condition rarity. The economy took a plunge in 1893, causing a wide spread financial panic. The mintage of silver dollars dropped, with only 300,000 struck in New Orleans. This coin has a bold, swirling cartwheel brilliance on both sides, with a strong "flash" around the central fields of the reverse. A few tiny ticks and marks are seen, which account for the modest grade assigned, but the eye appeal is bold, and no doubt in the old days this coin would have been called "CHOICE."

PCGS 417, NGC 254, CAC 19. There are just 11 in MS62+ and this date is RARE finer. NO CAC approved MS62+ has ever sold in auction. We sold the most recent PCGS MS62+ for \$4,230 in our January 2020 Regency Auction. In MS62 (no "+") the CAC CPG value is \$5,000 and the Collectors Universe value is listed at \$5,500 in MS62+. The value jumps to over \$7,000 in MS63.

**LOT 261****\$1 1893-O PCGS MS61 CAC**

A pleasing and original BU 93-O dollar, a lower mintage semi-KEY date in all grades, especially in Mint State grades. Fully lustrous surfaces bloom all over, radiating under pearlescent, gold-tinged silver surfaces. Very well struck for the issue, with just a slight touch of weakness in Liberty's hair curls above her ear. A few ancient marks are all that keep this 61 from an even loftier grade, though the eye appeal is strong for the modest grade.

PCGS 167, NGC 197, CAC 7. The most recent example brought \$5,750 in February 2019 (that coin was in an OGH holder). Prior to that, the only other PCGS/CAC sold for \$4,230. The current PCGS Price Guide value is listed at \$4,500 and the CAC CPG value is listed at \$4,380. An important coin for any Morgan dollar collector, a coin that is worthy of a strong bid.

Very handsome and CHOICE! The 93-S dollar is the lowest business strike mintage date in the entire series, with 100,000 struck. In constant collector demand in all grades, this is a perfect collector grade example, with deeper gray tones contrasting with lighter areas on the devices. Just some moderate wear is seen on the highest points.

PCGS 386, NGC 145, CAC 29. The current CAC CPG value is listed at \$6,560 and the Collectors Universe value is \$6,250, with the last 10 examples averaging \$6,204 in auction. With CAC approved XF40s approaching the five-figure price point, this highly original and very attractive VF35 is a great coin for any collector who cannot swing that point point.

Rating near the top of the PCGS Population Report for the date in DMPL, this GEM is bested by just four coins. Watery reflective mirrored fields have a bold flash and strong brilliance. Sharply struck devices are frosty and generally clean, with just a few tiny ticks and marks noted for accuracy. The eye appeal is very pleasing.

PCGS 26, NGC 11. The most recent example we sold realized \$1,705 in July 2018. This coin has appeared a few times in auction, realizing from \$1,400 to \$3,819. The current PCGS Price Guide value is \$2,150. There are 4 finer, 2 in 65+ DMPL and 2 in 66 DMPL, none of which have sold in auction for OVER a decade! The devices are well struck and stand out against the watery-reflective fields with a thick white frost. We note a few marks on the cheek, which is likely what precluded CAC approval, but the overall eye appeal is very nice!

PCGS 54, NGC 17. The most recent example to sell realized \$3,760 in November 2019 and the current PCGS Price Guide value is listed at \$2,000. Just 14 are graded higher, and are rarely seen in the marketplace, either in auction or on the bourse.

LOT 266**\$1 1900-O/CC PCGS MS66+ CAC**

This is a wonderful, high end, vibrantly lustrous GEM. Among the top two dozen graded by PCGS, there are just two finer than the presently offered beauty.

The surfaces are remarkably clean and smooth as you should expect for any Morgan dollar of any date in this grade. It takes a long time of searching with a glass to find any traces of contact worthy of mention, and they are all in non-focal areas. Exceptionally bold luster radiates on both sides, accenting the well struck devices. A pearly sheen envelopes both sides, adding the the exceptional visual allure of this nearly SUPERB GEM.

PCGS 155, NGC 13, CAC 40. There are 19 graded in MS66+ and there are a mere two finer. The last two PCGS MS66+ CACs sold in our December 2019 and January 2020 Regency Auctions, realizing \$8,519 and \$8,225 respectively. The last MS67 sold nearly a decade ago, realizing \$37,375. One of the FINEST KNOWN 1904-O dollars in the Prooflike designation. The quality of this AMAZING coin is superior and the eye appeal is simply impeccable. Sharply struck devices have a wonderful mint frost that is virtually flawless. The bold luster swirls boldly with a flashy Prooflike brilliance that captivates the eye. Despite its status as a common date, even in GEM Mint State grades, it is incredibly RARE in such a lofty PL designated grade, with only two graded so fine at PCGS. This coin is exceptionally high end, earning endorsements from both CAC and PQ!

PCGS 2, NGC 6, CAC 2. The current PCGS Price Guide value is listed at \$24,000 and the most recent example to sell in auction realized \$18,000 in September 2019. A gorgeous GEM that borders on the SUPERB. A vivid luster swirls all over the untoned, smooth surfaces and sharply struck devices. Blazingly brilliant mint luster captivates the eye giving this 1922 Peace dollar a stunning, "just coined" look. Despite a mintage of nearly 52 million, these are quite difficult to locate any finer than MS66.

PCGS 1006, NGC 1493, CAC 283. There are 101 in 66+ and just three dozen finer, all MS67. Two examples sold in the 2020 FUN auction for \$1,440 and \$1,920, well above the listed Price Guide value of \$1,250. Keep in mind that a 67 will cost \$12,000-\$13,000 with CAC approval, so the 66+ grade here is as good as it will get for the majority of collectors, so demand will be very strong. Good luck!

\$1 1922 PCGS MS62 CAC

The majestic blend of amazing color on this dramatically toned Peace dollar is truly captivating and alluring! Having seen (and rejected) many toned Peace dollars, this one is the REAL DEAL!

Vivid golds, oranges, blues, and greens swirl together on the obverse. The satiny underlying luster glows wonderfully, accenting and backlighting the color bringing it to its full visual impact. We rate the color a 9.5 on our 10-point color scale.

These are ultra rare and ultra popular. Many of the "monster toned" Peace dollars are not CAC approved for a reason. This one has a great look and will bring very strong bidding. We note in our December 2019 Regency Auction a reverse toned MS62 CAC sold for \$3,643 (an all time record for the grade). This coin, with its color on the obverse should see very strong bidding as well! Good luck!

\$1 1922-S PCGS MS66

While a common date in low Mint State grades, the 22-S becomes scarce in MS65 and is EXTREMELY RARE in MS66. The 22-S is one of those dates whose quality varies widely from coin to coin. The presently offered coin has a bold flashy look and nice eye appeal.

This GEM was struck early on in the production run, with extensive die preparation lines and a chrome-like lustrous brilliance throughout. In a light the luster can be blinding. Generally well struck, there was just touch of softness of strike as usually seen in the central portions of the design.

PCGS 18, NGC 19. In 2019 we sold two examples, one for \$32,900 and one for \$30,550. The current PCGS Price Guide value is listed at \$38,500. PCGS has graded just a single MS66+ finer, a coin that is impounded in the Simpson Collection. What a wonderful GEM for any advanced Peace dollar set and worthy of a world class set.

PCGS# 7359 • ESTIMATE: \$20,000+

**LOT 273****\$1 1928 PCGS MS65**

A radial, rolling cartwheel luster blooms vividly on both sides of this KEY Peace dollar issue. Pale accents of iridescent, clear gold toning can be detected when rotating the coin in a light. The details are fully defined on both sides and the surfaces are free of all but the most insignificant frost breaks, none of which do much to deter from the outstanding brilliance or eye appeal of this GEM.

PCGS 272, NGC 102. The last non-CAC PCGS MS65 example that we sold realized \$2,585 in our June 2019 Regency Auction and prior to that, we sold two in 2018 for \$2,640. The current PCGS Price Guide value is \$3,000 and the value jumps dramatically in 65+. A wonderful GEM for the Peace dollar collector.

PCGS# 7373 • ESTIMATE: \$2,200+

LOT 274**\$1 1935 PCGS MS66**

Warm frosty luster radiates on both sides of this well struck GEM with subtle hints of golden iridescent hues. A few scattered ticks and marks are noted, accounting for the grade.

PCGS 279, NGC 73. The current PCGS Price Guide value is \$1,600 but the APRs for the last 10 PCGS-graded coins averages at \$1,795, ranging from \$1,200 to \$3,360. With the finest PCGS graded examples being MS66+, we think there is much duplication in the Population Report trying for an even higher grade.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

LOT 275

G\$1 1850 PCGS MS68 CAC

Ex Eliasberg Collection.

This is the SINGLE FINEST 1850 gold dollar that survives, the ultimate in grade, eye appeal, and with the Eliasberg name, the ultimate in pedigree!

A stunning SUPERB GEM that traces its provenance to the famed Matthew Stickney Collection, sold by Henry Chapman in June 1907, where it was tersely described in lot 757 as, “Uncirculated. Mint lustre. Rare.” It was purchased by John H. Clapp, where it remained in his collection until 1942 when his estate sold the entire collection to Louis Eliasberg in a private treaty via Stack’s. The Eliasberg gold coins were sold in October 1982, where this coin appeared after 75 years off the market.

Virtually perfect in every way, this coin is a delight to behold. The bold, brilliance of the wonderful golden luster booms all over. Both sides offer the sharpest striking definition, the die polish lines clearly visible in the fields. The devices are thickly frosted, while the surfaces have a rich, satiny glow that has touches of Prooflike flash in the obverse fields. Every detail is razor sharp, a masterpiece survivor of this early Type One gold dollar. In the 1982 Bowers and Ruddy Sale of the United States Gold Coin Collection (Eliasberg), this coin appeared as lot 6, where the cataloger clearly describes this coin as being a possible “presentation striking.” Regardless, today, it rates as one of the absolute FINEST Type One gold dollars of any date, and has a look that will delight any serious gold collector.

The mintage of 481,953 pieces makes this date somewhat available, but in comparison to the 1851 and 1853 gold dollars, this date is much scarcer in GEM grades. In SUPERB grade, the 1850 is virtually unobtainable; indeed the grading service populations combined in MS67 through MS68 represents a total of FOUR COINS, this coin accounts for three of them! The only other example is the Akers/Duckor MS67.

PCGS 1, NGC 1, CAC 1. Similar in rarity overall to the 1851, of which the Duckor sale (August 2015) had a PCGS MS68 CAC example that sold for \$94,000. The Collectors Universe Price Guide has not yet assigned a value, but with this coin’s great and TOP POP credentials, we could see it bringing a record price. If you are building the world’s best gold dollar, or gold type set, do not let this tiny jewel slip you by! Add your name to the highly desired Stickney-Clapp-Eliasberg pedigree chain! Good luck!

PCGS# 7509 • ESTIMATE: \$85,000+

LOT 276**G\$1 1859 PCGS MS67 CAC**

An extraordinary SUPERB GEM 1859 gold dollar, among the highest graded at either service. Despite a sizable mintage of 168,244, this date is incredibly rare in GEM grades and extremely rare in such a lofty state of preservation.

Seductive, bright, brilliant, yellow gold surfaces have an outstanding luster that billows from all over. The fields are satiny smooth, free of any distractions of any kind. The devices are incredibly well struck and this tiny golden jewel is a marvelous beauty with tons of eye appeal.

PCGS 4, NGC 3, CAC 3. Only a single PCGS-graded MS67 has ever sold in auction, realizing \$12,925 in March 2016. The current CAC CPG value is listed at \$15,700 and the Collectors Universe value is listed at \$14,500. Just two are graded finer, both MS68+. What a great looking coin that is bound for a great collection of gold dollars.

What a stunning totally ORIGINAL SUPERB GEM!

To the naked eye there are ZERO imperfections and even with a strong glass all you can find is a tiny tick or two and a small hidden frost break. Not much keeps this coin from an MS66 designation. A strong luster beams from the beautiful ORIGINAL deeper yellow / orange gold colors. There are NO spots or discolorations.

Miss Liberty and the details are frosty and have excellent strikes. The eye appeal is terrific!

PCGS 8, NGC 20, CAC 4. PCGS has graded only 2 in MS65+. The last one to sell in auction was way back in 03/2013. Even then that coin brought \$8,519.00! We can't stress enough the great long term potential this amazing 167 year old GEM gold coin offers. You're certainly not going to see many more of these frequent the marketplace!

\$2.50 1897 PCGS MS66+ CAC

A bold, satiny GEM example. Though only 29,738 were produced, a number of them were saved at the time of issue, which is a lucky occurrence for today's collectors who demand high quality. A strong luster blooms all over, accenting the great orange-gold color and sharply impressed design elements. We note a scattering of minor ticks, which preclude a full SUPERB GEM grade, but they have little impact on eye appeal.

PCGS 48, NGC 47, CAC 14. There are four in MS66+ at PCGS, only two of which have sold in auction, including the one we sold in December 2016 for \$3,878. The current Collectors Universe value is \$3,500. Fewer than a dozen and a half have been graded finer at PCGS. Good luck.

\$2.50 1907 PCGS MS67+

This is one of the finest examples of the final year of this very long series. Struck since 1840 with very little in the way of design change. This beautiful SUPERB GEM has a warm, frosty, satin glow on both sides. Well struck and nearly pristine, this quarter eagle is a great capstone to your set.

PCGS 12, NGC 5. The only non-CAC PCGS MS67+ sold in the 2019 ANA auction for \$3,360 and the current PCGS Price Guide value is listed at \$5,000. Just two MS68s have been graded, in 34 years of coin grading at PCGS, and if you can find one, it will cost over \$17,000 to add it to your set. Good luck.

\$2.50 1908 PCGS MS66 CAC

This is an immaculate, borderline SUPERB GEM! What a fantastic, superb quality example of the first year of the type. For an Indian Head quarter eagle, the surfaces are remarkably clean and lustrous with a beautiful two tone original gold with pale orange gold highlights. All of the incuse details are very well struck. A strong glass reveals a tiny tick or two, but even the dreaded right reverse field is high end. The luster is good and is glowing and there are NO spots or discolorations anywhere. The eye appeal is totally amazing.

PCGS 113, NGC 67, CAC 23. The last one to sell brought \$10,800 in the 2020 FUN auction and we sold a similar looking coin for \$10,281 in our December 2019 Regency Auction. The current CAC CPG value is listed at \$11,000 and this date is remarkably rare any finer!

LOT 281**\$5 1857-S PCGS AU55 CAC
S.S. CENTRAL AMERICA**

This coin was handpicked out of a small group of 1857-S pieces. The quality is way above average. The surfaces have only light abrasions with some small and scattered ticks, you really need a glass to see them. In addition the surfaces are clearly prooflike on the obverse. The reverse is slight and is more satiny. All we can say is they did an amazing job curating the coin to the point that if you did not know they did it, you would never be able

to tell. An intense luster beams from all over as well. Both sides are an even gold color with no spots or discolorations. Miss Liberty and the details are frosty and are fully struck. The eye appeal is flashy plus!

PCGS 3, with 46 graded higher in the Shipwreck. It is important to note that prior to these being found, this date was one of the rarest of all \$5 Liberty's. Here you get a true treasure ship piece that was sitting on the ocean floor for over 150 years. Once these coins are sold, good luck finding more!

PCGS# 670803 • ESTIMATE: \$5,000+

**LOT 282****\$5 1893 PCGS MS66 CAC**

Talk about a very rare and under appreciated date. Despite being common in all grades up to MS64+, it is RARELY available on the market any finer. Indeed, no PCGS coin graded MS65 or finer has sold in AT LEAST five years!

A thick, rich, golden mint frost has a bold, satiny textured luster that radiates with a bold brilliance. The surfaces are of nearly superb quality with virtually no marks of consequence to be found

anywhere, even with the aid of a strong glass. The eye appeal is truly magnificent, deserving of its PQ! and CAC stickers.

PCGS 6, NGC 8, CAC 4. No CAC approved example has ever sold in auction, and the most recent PCGS-graded MS66 sold in auction a decade ago. The current PCGS value is \$10,000 and we think this one will sell for more than that; these are hard to value based on a decade old auction record!

PCGS# 8383 • ESTIMATE: \$7,500+

LOT 283**\$5 1896 PCGS MS65 CAC**

One of the finest graded examples of this date. A lower mintage of only 58,960 is far lower than most Philadelphia mint issues of the era. While considered a generic date in lower grades, they are quite scarce in MS64 and extremely rare in GEM as here. According to Jeff Garrett and Ron Guth in their Encyclopedia of U.S. Gold Coins, there are no examples in the National Numismatic Collection.

The present GEM has a bold, satin radiance in the fields. The brilliant luster swirls all over the pale, yellow gold surfaces. Sharply struck and very clean, this 1896 half eagle has a great look!

PCGS 3, NGC 5, CAC 3. Since 1990, there have been three examples sold in auction combined between PCGS and NGC! Only one PCGS/CAC example has ever sold, realizing \$16,100 in June 2010, nearly a decade ago! The current CAC CPG value is listed at \$18,200. Just two are graded finer, a 65+ and a 66, neither of which have sold in auction. This coin is worthy of a very strong bid and placement is a very high end Registry Set. Good luck!

This is a satiny smooth SUPERB GEM with rich reddish-orange gold color with a bold satin mint luster. Well struck devices, combined with the awesome color and clean surfaces make for an excellent eye appeal.

PCGS 3, NGC 5. The last one sold in March 2006 for \$13,800 and the current PCGS Price Guide value is listed at \$16,500. This high grade example is perfect for a type set or placement in a monster \$5 Lib set.

\$5 1887 PCGS PR64 CAM CAC

A major rarity in the long running Liberty Head half eagle series, the 1887 half eagle is a PROOF ONLY date, that saw a mintage of only 87 pieces, of which John Dannreuther estimates 35-45 survive to this day. Unlike other Proof issues, the 1887 has the largest population of circulated and impaired examples, as no Philadelphia mint \$5 gold pieces were struck for circulation.

The surfaces have a gorgeous orange-peal texture in the fields, which are ultra deep and highly reflective. The devices are fully struck and have a thick golden frost throughout. A mint made planchet flaw is seen with effort on Liberty's brow, and there is a thin, ancient hairline on the reverse, which we note for accuracy. The eye appeal of this near-GEM Cameo gold coin is spectacular, a wonderful American numismatic treasure.

Only 87 half eagles were struck, all in Proof. PCGS 5, NGC 2, CAC 4. PCGS-graded PR64 CAMs seem to sell in a once per 8-10 year time frame the most recent selling in the 2020 FUN auction; but before that one sold in August 2011, and prior to that one, the last had sold in May 2003! The most recent brought \$72,000 and the one before it brought \$86,250. The current PCGS Price Guide value is listed at \$85,000 and a PCGS/CAC PR65 CAM sold in the 2018 ANA auction for \$144,000. Clearly these are VERY RARE and highly desired coins, and this one will be a real highlight of anyone's special collection. Good luck!

\$5 1909-O PCGS MS63 CAC

This is the ONLY Indian Head half eagle struck at the New Orleans mint. Only 34,200 examples were struck of this final New Orleans issue for circulation, many of which disappeared into daily commercial use. Very few survive in Mint State, fewer still qualify for CAC approval. In nearly 35 years of operations, fewer than a dozen have ever graded finer, and only a single example is CAC approved.

This fully CHOICE and totally original specimen, is very high end. A rich orange-golden color graces the surfaces of the satiny, brilliant surfaces. All feathers both from the headdress and eagle are fully rendered, and the all important O mintmark is bold. Clearly, unlike the vast majority of these that are seen in the marketplace, this lovely, toned piece has never been dipped, stripped, or otherwise cleaned or conserved in hopes of getting a higher grade. While a strong glass reveals a few tiny lines and insignificant ticks, which account for the assigned grade. Not only is this CHOICE example high end from a technical basis, the eye appeal is VERY BOLD for the date.

PCGS 9, NGC 7, CAC 3. The last PCGS MS63 CAC sold in November 2013 for \$105,750, and before that one sold in the 2010 ANA auction for \$92,000. Today the Collectors Universe value is listed at \$95,000 and the CAC CPG value is \$102,800. Keep in mind that NO PCGS MS64 has sold since 2006 (and none are CAC approved). Indeed the only CAC example graded finer is the MS65 that was part of the Collection of a Prominent Midwestern Family in June 2016, which realized in excess of half a million dollars! This coin will instantly vault your Indian Head \$5 set into a very high tier, rarely attained by any collector. Good luck.

\$10 1803 SMALL STARS REVERSE. PCGS AU58+ CAC BD-3. No question this coin is a SUPERB GEM AU. At first glance, it looks Mint State. We LOVE AU's when they are like this (and are properly graded).

Save for a few MICROSCOPIC old ticks, the surfaces overall appear very clean. When using a strong glass you can see minor die clashing (Mint made). We see nothing but positives about this GEM AU coin. We do NOT believe it was ever messed with (CAC does not bean cleaned coins). A bold luster beams from all over. Both sides are an original deeper gold color. There are NO spots or discolorations. There is some weakness on the left sides obverse stars, however all other details are sharply struck and have light frost. The eye appeal is terrific!

Unique as the ONLY Prooflike 1899-S eagle graded by PCGS and this coin is the REAL DEAL! Not only that, but it is CAC approved! You know how tough they are on PL gold. Highly reflective, mirrored fields beam from all over, accented by a billowing, flashy cartwheel luster. The razor sharp devices are frosted giving this coin a near cameo look. The mirrored reflectivity in the fields exaggerate the impact of the minor contact marks seen on the surfaces. The eye appeal is very strong indeed!

PCGS 1, NGC 7, CAC 1. We have found two records for NGC

(non-CAC) MS61 PLs that have sold, the most recent in December 2014 for \$1,763 and one in June 2006 for \$1,320. In PL there is no Collectors Universe value, so you will just have to go for your guts on this one! Good luck!

WOW! What a VERY HIGH END GEM! This coin is seriously well above and beyond the typical MS66+ Isabella. We rank it among the best in terms of eye appeal we have seen for the grade! In fact, if there was a Northern Lights Collection for Commemms, this coin would be in it. We rank the colors a full 9+ (on our 1-10 color scale). Mother Nature teamed up with the numismatic gods to make this heavenly creation! Awesome album toning encircles both sides with shades of blue and purple dominating, blending to rose and gold before yielding to brilliant, frosty silver at the centers. The mint luster is vibrant and brilliant swirling with flashy cartwheels that bring out the subtle hues. The luster also brings out the depth and crispness of the strike.

PCGS 250, NGC 139, CAC 104. PCGS graded 38 in MS66+. The current price guides are meaningless for a coin like this. It is all about the eye popping color here. The surfaces are dusted by an iridescent toning on the obverse and a frame of patina on the reverse. PCGS 337, NGC 265, CAC 171. There are 13 in 67+ and the current Collectors Universe value is listed at \$900.

1938-S NGC MS68 CAC. One of the FINEST examples known, this coin ranks at the top of the NGC Census. Well matched to the toning of the P and D offered in this set, the eye appeal is off the charts. PCGS 18, NGC 26, CAC 14. Collectors Universe is \$4,000.

What a spectacular original set, this one is worthy of a very strong bid and placement in a great commem set. Good luck!

LOT 298

50C 1936-S RHODE ISLAND. PCGS MS67 CAC

An exceptional GEM example of this lower mintage classic commem. Only 15,000 were struck, and this one ranks among the top tier of surviving specimens. Sharply struck up on both sides, the surfaces have a vivid mint luster. Both sides show a pale rose-gold with peach-apricot and brilliant yellow-gold hues. There are a scattering of minor ticks in the central areas, but they are visible with only a strong glass, failing to impact the high end eye appeal.

PCGS 33, NGC 24, CAC 21. The last two sold for \$1,560 and \$1,440 in May 2019. The CAC CPG value is \$1,750 and the current PCGS Price Guide value is listed at \$1,500. There are eight graded finer, all MS67+. Good luck!

LOT 299**50C 1935-S TEXAS. PCGS****MS68 CAC**

An AMAZING SUPERB GEM! Tied for FINEST 1935-S Texas and what a beauty it is! This is NOT a "just made it" MS68 that was upgraded from a 67; this coin is all there and then some, truly worthy of its CAC bean! Cool with a lower mintage too, only 10,000 were struck.

The original surfaces are SUPERB! They are the epitome of perfection, with zero imperfections of any kind

anywhere. The boldly lustrous surfaces shimmer with a brilliant, pearl-like sheen on both sides., which is accented by the wonderful sunset-orange gold coloration at the rims. The eye appeal is magnificent!

PCGS 5, NGC 9, CAC 5. The last three appearances of a PCGS/CAC example have brought between \$10,575 and \$12,600. The current PCGS value is \$15,000 and honestly it would not shock us if it brought close to that amount, it is that nice! This coin will sell be at home in the FINEST of commem sets!

LOT 300**50C 1946-S BOOKER T.****WASHINGTON. PCGS****MS68 CAC**

Unbelievable everything! WOW! This coin is the epitome of high end technical quality and visual allure. We have offered two other MONSTER TONED MS68 examples which happen to be tied for FINEST KNOWN.

This coin is a near match in color and intensity of eye appeal to those other two. Toned with a dominant cranberry-red color, both sides

show hints of dark purple, tangerine, indigo, and gold, all the hues brought out by a vivid mint brilliance under the color. The surfaces are generally clean and free of any distractions. The color ranks a full 10 out of 10 on our color scale, the eye appeal is off the charts!

PCGS 7, NGC 5, CAC 8. Only one example has sold in auction, realizing \$9,988 in our May 2018 Regency Auction. The current Collectors Universe value is listed at \$10,500. With NONE finer, this coin is bound to be placed in a prized collection of toned Commemoratives. Good luck, bidding will be intense!

LOT 301
\$20 1854 KELLOGG. PCGS AU58+ CAC S.S.C.A.
EX S.S. CENTRAL AMERICA

K-2, the long arrows type. Wow! We love all high quality territorial gold coins, the larger denoms are always impressive pieces. This high end AU58+ has a great look.

Sharply struck and well preserved, the coin barely circulated prior to being on board the S.S. Central America. Both sides are satiny and brilliant with a sumptuous mint luster that blooms all over. Typical to these large gold pieces there are some minor contact marks seen on both sides. Obviously gold is soft, and these are heavy, so contact marks are common. None of the marks on the present coin are distracting to the wonderful eye appeal.

There were 26 1854 Kellogg \$20s from the second round of coins recovered from the S.S. Central America shipwreck, most of which were graded AU55 and AU58.

PCGS 22, NGC 44, CAC 6. The shipwreck had 2 graded AU58+ recovered. Whether from the S.S. Central America or not, no AU58+ has ever sold in auction. In fact, none of the S.S.C.A. coins sold in auction that we can see. The current PCGS Price Guide value for this coin is \$40,000. Just two Mint State coins were recovered, making this one of the best Kellogg \$20s from the wreck. Good luck!

LOT 302

**\$1 1836 J-60. ORIGINAL. COIN ALIGNMENT. PCGS
PR64**

Tied for FINEST graded ORIGINAL striking of the famed 1836 Gobrecht Dollar struck in Coin Turn, with the eagle flying upward on the reverse, as opposed to the medal turn, which is aligned 180 degrees from the coin turn, but the eagle also flies upward through the constellation of stars. This beautiful coin is from the original 1,000 pieces produced prior to December 31, 1836. This remarkable, near-GEM quality example is very challenging at this grade level, and no ORIGINAL example has ever graded finer.

Wonderfully watery reflection in the fields are brought out in a light, showing significant flash, particularly on the reverse. Both sides are awash in a rich blend of olive, russet, slate, teal, gold, and rose hues. Every detail is exquisite in its strike and execution, and this one is especially well preserved. Aside from a few light lines, and a tiny tick on the high wire rim, this coin is without flaw and the eye appeal is amazing.

The mint ceased production of silver dollars in 1804 (none were dated 1804, most were struck using 1803 dies). In 1836, the mint began striking dollars again, with a small quantity of Seated Liberty dollars designed by Christian Gobrecht. His elegant Seated motif, without stars allows you to focus on the intricate folds of Liberty's drapery, his signature C. Gobrecht. F. on the base of the rock on which she sits. The American Eagle, flies "onward and upward" through a field of 26 stars, representing each state in the union. Only 1,000 were struck in this alignment, and even though they were struck in a Proof format, these were designated for circulation and were not patterns as earlier thought, and listed in Judd (other iterations--restrikes, novodels, off metal strikes, etc, were struck for collectors in the 1850s and later). With a large number of circulated examples, these were clearly made for commerce.

PCGS 14, NGC 22. The most recent PCGS-graded example to sell in auction was the Lawrence Stack-Brent Pogue piece, which sold for \$82,250 in May 2016. Prior to that, one sold in the 2014 ANA auction for \$88,125. and the current PCGS Price Guide value is \$85,000. With none graded finer, we know demand for this impressive and historic beauty will be intense. What a great coin for any silver dollar type or date set, or placement in a spectacular Box of 20. Good luck and congratulations in advance to the winning bidder!

LOT 303**\$1 1870 J-1002. NGC PF65**

What a lovely GEM example of this Rarity-6- pattern Seated Liberty dollar struck in silver with a reeded edge. Featuring Barber's rendition of Liberty Seated, mated with a regular With Motto reverse die.

One of only a handful of GEMs graded by PCGS and NGC across all designations. Watery reflective mirrored fields reflect vividly in the light. The obverse and reverse are deeply toned in a teal-blue and rose gold hue. The details are razor sharp and have complete, full definition on both sides. A few ancient lines in the fields are noted, but only with the aid of a very strong glass. We do not see why this coin did not sticker at CAC; the eye appeal and originality are great.

PCGS 1, NGC 1. This coin has not been sold since June 2012, where it realized \$8,343. The current Collectors Universe value is listed at \$9,750 and the 10th edition of Judd lists a value of \$12,000 in PR65. NONE are finer in any designation at NGC, this Pattern issue usually only comes up for sale when extensive Pattern dollar collections are sold. A rare opportunity here!

PCGS# 61249 • ESTIMATE: \$7,000+

LOT 304**\$1 1871 J-1148 NGC PF65****BN**

This pattern dollar boasts one of this cataloger's favorite designs: James Longacre's seated Indian Princess. Liberty wearing a feathered headdress sits, supporting a globe, showing the North and South American landmass, a ribbon inscribed LIBERTY across. She holds a pole with a Liberty Cap, and two flags behind. Thirteen stars around, date below. The reverse is the standard Seated Liberty With Motto reverse. Struck in copper with a plain edge. Longacre's design is struck in stark, high relief, its devices in full 3D against the smoothness of the surrounding fields.

Flashing coppery surfaces give this coin the look of a bronzed medal struck during this time at the mint. Pleasingly toned with deep olive-brown surfaces that have accents of pale blue, lilac, and iridescence. A few ancient flecks are seen identifying this GEM as the ex. Jones Beach coin.

PCGS 0, NGC 1. This coin last sold in auction in the 2007 FUN auction, realizing \$6,900. Since then, an NGC PR66 BN sold for \$13,800 in August 2010. The current Collectors Universe value is listed at \$11,000 and the 10th edition of Judd lists a value of \$14,000. This is an exceptionally well designed pattern dollar and very popular as such. We expect strong bidding for sure!

LOT 305**\$1 1879 J-1614. PCGS PR64****BN**

A very richly and originally toned example of this RARE Morgan dollar pattern. The obverse is a regular issue Proof die, while the reverse is somewhat modified, with a larger eagle, the letters smaller, and IN GOD WE TRUST not in Gothic font. Struck in copper with a reeded edge, this pattern is listed as a Low R-7, with an estimated 7-12 known; between PCGS and NGC there are 17 total on the Population and Census Reports, no doubt accounting for resubmissions and crossovers that have not been removed.

The coppery surfaces have a watery reflection under a deep layer of chestnut, violet, olive, and rose iridescent hues. Sharply struck throughout, the devices have a wonderful frost. The eye appeal is excellent and these are very rarely seen in the marketplace.

PCGS 2, NGC 1. There has not been any J-1614s in the BN category since 2008 when an NGC PR65 BN sold in the FUN auction. The current Collectors Universe value is listed at \$8,000 and that level may prove low when this one sells. Good luck!

LOT 306**5C 1883 J-1714. PCGS PR65****CAM CAC**

A lovely, CAMEO GEM Proof example of this R-6 pattern Liberty nickel. The obverse features Barber's coronet head of Liberty with a plain crown, the word LIBERTY in the legend above. The reverse is a regular No CENTS reverse die. Struck in nickel with a plain edge.

The GEM offered here is very reflective, with bold mirrors in the fields, which stand out against the white frost of the razor sharp devices. A delicate iridescent tone on both sides add to the outstanding visual allure.

PCGS 5, NGC 1, CAC 1. This coin sold in the 2019 ANA auction for \$10,800. As the single highest CAC-approved J-1714, anyone working on a high end set of Liberty nickel patterns needs to bid on this GEM. Worthy of a very strong bid from any pattern specialist.

\$1 1995-W SILVER EAGLE. PCGS PR68 DCAM
FROM THE TOMMY JOHN COLLECTION.

Freshly graded, this exceptional example of this KEY modern issue, one of only 30,125 were struck, and were only available in sets with the 1, 1/2, 1/4, and 1/10-ounce Proof Gold American Eagles. For the collector of this set, it is undisputed KEY issue; only the 2019-S Enhanced Reverse Proof, with a mintage of 30,000 was lower. Stone bold DEEP CAMEO contrast stands out on both obverse and reverse, with thickly frosted devices that are surrounded by deep “black” mirrored fields.

PCGS 741, NGC 236. The most recent PCGS PR68 DCAM sold in April 2019 for \$2,527 and the current Collectors Universe value is listed at \$2,850.

\$1 1995-W SILVER EAGLE. PCGS PR69 DCAM
FROM THE TOMMY JOHN COLLECTION.

Another freshly graded example of this KEY American Silver Eagle. Just over 30,000 were struck for collectors and were only available in the special 5-piece 10th Anniversary sets. Essentially FLAWLESS, even with a strong glass you cannot find a single flaw of any consequence! Deep beaming mirrors contrast against the thick frost of the devices. The eye appeal is absolutely AMAZING!

PCGS 2987, NGC 4698. The most recent examples sold in December 2019, ranging in price from \$2,640 to \$2,760 and the current PCGS Price Guide value is \$3,275. With PR70 DCAMs bringing five figures, this is as fine as most collectors can ever hope to add to their sets.

\$20 2009 ULTRA HIGH RELIEF. PCGS MS70
FROM THE TOMMY JOHN COLLECTION.

As most collectors know, in 1906, Augustus St. Gaudens, the preeminent American sculptor and personal friend of President Theodore Roosevelt, was tasked to redesign all the coins struck for circulation. He started with the eagle and double eagle, and his types are among the most beautiful and popular designs struck in the entire history of federal coinage. One of his concepts for the double eagle was his Ultra High Relief design, prepared for a planchet the diameter of a \$10 gold piece, but containing the proper amount of gold for the \$20 face value. Only one of these piedfort or double thick examples is known, impounded in the National Numismatic Collection at the Smithsonian. In 2009, the mint reissued this design, only 115,000 were struck. This one has a vivid semi-Prooflike luster that accents the sharply struck devices. This is a really neat modern that we happen to love.

PCGS 8778, NGC 9399. The current PCGS Price Guide value is \$2,500 and these have been selling for around \$2,000 in auction.
